**Minutes Approval:** A motion was made by John Young to approve the November minutes and seconded by Kim Nance.

**"A" School Recognition Funds Vote:** Reviewed the options that teachers and staff voted on. The results of that vote said, "that all staff at OMS returning from last year and, those that have retired, receive a bonus." Curtis Carpenter made a motion and Marie Gruber seconded the motion. The motion was unanimously approved.

**Technology Teacher Committee:** John Young gave us a recap of his presentation to the school board and his discussion with school board members and Bruce Green following the meeting. He learned that, at this time, a fifth special was not in the budget and was not going to happen for the time being. B. Green let him know that the county's perspective is to put technology in the hands as much as possible. However, even though they have the curriculum, they struggle with having the time to disperse the curriculum to the teachers. In an effort to educate students and put technology into the hands of our students, J. Young suggested that we invite Bruce Green in to discuss his perspective in more depth so we could determine the right path to pursue. Cindy Rodriguez mentioned developing training for volunteers to come into the classroom to work with students. S. Simpson followed up with B. Green and they had a discussion about bringing laptops to the teachers so they were more mobile and flexible. Diane Parentella mentioned incorporating more teacher training, like Canvas, to imbed it more into the classroom. We are moving forward with inviting Bruce Green to our next SAC meeting on Feb. 14<sup>th</sup>.
