Meeting ended: 4:20 p.m.

**Citrus Elementary School SAC Committee Proposal for  
New Campus Radios  
BearCom, Tampa Florida**

<b>Kenwood NX-1300 Radio</b>	<b>\$219.00/radio(2 Year Warr.)</b>
<b>Shipping &amp; Handling</b>	<b>\$19.00 for up to 10 radios</b>

**We would like to ask for some new campus radios as some of our radios are starting to get very old and we need to replace many of them. We would like to ask for 10 replacement radios for next school year. We have recently used BearCom (February 2020) out of Tampa, Florida and they already have the frequency we use for our radios. See attached quote.**

---

<b>Totals:</b>	<b>10 Radios</b>	<b>\$2,190.00</b>
	<b><u>Shipping</u></b>	<b><u>\$19.00</u></b>
	<b>Total Cost:</b>	<b>\$2,209.00</b>

**Thank you for your consideration of this expense for the Citrus Elementary School campus safety team.**

To: CES SAC Committee  
Subject: MobyMax Math & Science Subscription  
Teacher: Laura Clement/Grade 4  
Amount: \$360.00

To Whom it may Concern,

I am requesting a 12 month subscription for MobyMax Math and Science at a cost of \$360. to service all of my 4<sup>th</sup> grade students and also the RTI students that I am assigned.

Goal 1: Students will show an increase in math proficiency (i.e/ math concepts, computation and problem solving skills) on or above grade level.

Goal 2: Students will be exposed to the necessary science standards based concepts.

I have been using MobyMax for many years in my classroom. It has been proven to be an asset to my students' learning. It is a complete system that helps me identify areas of strength and weakness that my students might have through placement testing, progress monitoring, assessments, and IEP reporting. Through the adaptive curriculum each student gets their very own learning plan. Students who are struggling get the extra exposure and the help they need, while students who are ready to move on are challenged appropriately. It has the ability for students to discover learning on their own through discovery-based instruction.

As a teacher, the continuous progress monitoring makes formative instruction that much easier. Because MobyMax is based on the Common Core, I can analyze data based on standards, student, class, or school. **Monthly math contests** are set up for students to earn rewards and recognition of achievement. These contests have helped to increase student achievement levels.

Students can earn prizes and badges as they work through MobyMax and can set their own daily goals. It has really helped my students because it tailors the lessons to their specific, individual needs so that they are working in the areas they are having trouble in. I can track their lessons and reassign lessons I feel they need to do again to be sure they have mastered the concept.

Thank you for your consideration,

Laura Clement
