The issuance of the TAN is required in order to provide necessary, short-term financing to position the District in such a manner that it is able to meet projected cash flow deficits of the General Fund. Based upon staff analysis, it is projected that the District will experience cash receipt deficits ranging from \$2.1 million to \$7.3 million during the month of October 2019. These cash flow deficits are mainly attributable to the intense slow-down of cash receipts from the Tax Collectors' Office that is usually experienced from July through the middle of November every year. Upon the completion of the services, the ELC shall return to School Board all original and any copies of the confidential student information, and shall not retain any confidential student information. As the ELC will be receiving student information that is otherwise confidential, the ELC shall fully comply with the requirements of §1002.22 and §1002.221, Florida Statutes, and any other law or regulation, either federal or State of Florida, regarding confidentiality of student information and records. Further, the ELC for itself, and its officers, employees, agents, representatives, contractors, and subcontractors, shall fully indemnify and hold the School Board and its officers and employees harmless for any violation of this provision, including, but not limited to defending the School Board and its officers and employees against any complaint, administrative or judicial proceeding, payment of any penalty imposed upon the

School Board, or payment of any and all costs, damages, judgments, or losses incurred by or imposed upon the School Board arising out of the breach of this provision by the ELC, or its officers, employees, agents, representatives, contractors, and subcontractors, to the extent that the ELC shall either intentionally or negligently violate this provision, or § 1002.22 or § 1002.221, Florida Statutes. This provision shall survive the termination of or completion of all obligations under this Agreement and shall be fully binding upon the ELC until such time as any proceeding which may be brought on account of this provision is barred by any applicable statute of limitations.

The indemnification obligations hereunder shall not be limited to any limitation on the amount, type of damages, compensation or benefits payable by or for the ELC or any subcontractor under workers' compensation acts, disability benefit acts, other employee benefit acts or any statutory bar. This provision shall survive the termination of or completion of all obligations under this Agreement.

15. NO WAIVER

Nothing herein is intended to serve as a waiver of sovereign immunity by the School Board.

16. DEBARMENT

By signing this Agreement, the ELC certifies, to the best of its knowledge and belief, that it and its principals:

- a. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by a federal department or agency.
- b. Have not, within the preceding five-year period, been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state or local) transaction or contract under public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements or receiving stolen property.
- c. Are not presently indicted or otherwise criminally charged by a governmental entity (federal, state or local) with commission of any of the offenses enumerated in the preceding paragraph (b).
- d. Have not within the preceding five-year period had one or more public transactions (federal, state or local) terminated for cause or default.
- e. Have not been debarred by the School Board pursuant to School Board policy 6320.

The ELC agrees to notify School Board within 30 days after the occurrence of any of the events, actions, debarments, proposals, declarations, exclusions, convictions, judgments, indictments, information, or terminations as described in subparagraphs (a) -(e) above, with respect to the ELC or its principals.

- f. The School Board is not obligated and does not agree to pay any federal, state, or local tax as a result of this agreement. The only exemption regarding payment of taxes shall be for situations that involve re-sale of product to the public for the purpose of fund-raising.

17. EQUAL EMPLOYMENT OPPORTUNITY

The parties shall not discriminate against any employee or participant in the performance of the duties, responsibilities, and obligations under this Agreement because of race, color, religion, gender, age, marital status, disability, political or religious beliefs, or national or ethnic origin.

18. ACCESS TO RECORDS/FLORIDA'S PUBLIC RECORDS LAWS

This Agreement shall be subject to Florida's Public Records Laws, Chapter 119 Florida Statutes. ELC understands the broad nature of these laws and agrees to comply with Florida's Public Records Laws and laws relating to records retention . ELC shall keep records to show its compliance with program requirements. ELC and its subcontractors must make available, upon request of the School Board, the United States Department of Education, the Comptroller General of the United States, the Florida Department of Education, or any of their duly authorized representatives , any books, documents, papers, and records of ELC which are directly pertinent to this specific Agreement for the purpose of making audit, examination, excerpting, and transcribing. ELC shall retain all records for five (5) years after final payment is made or received and all pending matters are completed pursuant to Title 34, Sections 80.36(b)(1). Exempt or confidential information should not be disclosed unless authorized by law. ELC shall destroy any duplicate records which are exempt from public records disclosure as set forth in Chapter 119. Upon termination of this agreement all public records in possession of ELC must be transferred to School Board at no cost. If records are stored electronically, the records must be provided in a compatible format to School Board's operating system.

19. BACKGROUND SCREENING REQUIREMENTS

In accordance with the requirements of §1012.465, §1012.32 and §1012.467, Florida Statutes, and School Board Policies as amended from time to time, the ELC agrees that, if the ELC receives remuneration for services, the ELC and all of its employees who provide or may provide services under this Contract will complete criminal history checks, and all background screening requirements, including level 2 screening requirements as outlined in the above-referenced statutes and School Board Policies prior to providing services to The School Board of Indian River County. This policy exempts non-instructional contractors **who are under the direct supervision of a school district employee or contractor who has had a criminal history check and otherwise meets the criminal background screening requirements.** For purposes of this paragraph, the term “direct supervision” means that a school district employee or contractor is physically present with a non-instructional contractor when the contractor has access to a student and the access remains in the school district employee’s or the contractor’s direct line of sight. Additionally, the ELC agrees that each of its employees, representatives, agents, subcontractors, or suppliers who are permitted access on school grounds when students are present, who has direct contact with students or who has access to or control of school funds must meet level 2 screening requirements as described in the above-referenced statutes and School Board Policies. A non-instructional contractor who is exempt from the screening requirements set forth in §1012.465, §1012.468 or §1012.467, Florida Statutes, is subject to a search of his or her name or other identifying information against the registration information regarding sexual predators and sexual offenders

maintained by the Department of Law Enforcement under §943.043 and the national sex offender public registry maintained by the United States Department of Justice. Further, upon obtaining clearance by School Board, the School Board will issue a photo identification badge, which shall be worn by the individual at all times in plain sight while on School Board property when students are present. The ELC agrees to bear any and all costs associated with acquiring the required background screening -- including any costs associated with fingerprinting and obtaining the required photo identification badge. The ELC agrees to require all its affected employees to sign a statement, as a condition of employment with the ELC in relation to performance under this Agreement, agreeing that the employee will abide by the heretofore described background screening requirements, and also agreeing that the employee will notify the ELC /Employer of any arrest(s) or conviction (s) of any offense enumerated in School Board Policy 8475 within 48 hours of its occurrence. The ELC agrees to provide the School Board with a list of all its employees who have completed background screening as required by the above-referenced statutes and who meet the statutory requirements contained therein. The ELC agrees that it has an ongoing duty to maintain and update these lists as new employees are hired and in the event that any previously screened employee fails to meet the statutory standards. The ELC further agrees to notify the School Board immediately upon becoming aware that one of its employees who was previously certified as completing the background check and meeting the statutory standards is subsequently arrested or convicted of any disqualifying offense. Failure by the ELC to notify the School Board of such arrest or conviction within 48 hours of being put on notice and within five (5) business days of the occurrence of qualifying arrest or conviction, shall constitute grounds for immediate termination of this Agreement. The parties further agree that failure by the ELC to perform any of the duties described in this section shall constitute a material breach of the Agreement entitling the School Board to terminate this Agreement immediately with no further responsibility to make payment or perform any other duties under this Agreement.

Summary Points for Recommended Board Policy Changes - Volume 19, Number 2 & Special Release on School Safety

Policy #	Policy Title	Summary Points	Owner
100	Definitions	Revised. Bylaw 0100 was revised to remove the definition of "Relative," because Florida law provides for varying definitions of the term "relative" depending on the particular issue. Thus, instead of providing a uniform definition of "Relative," we have cited to the applicable statutory definition of "Relative" when that term is used throughout our policy templates. Clarity is also provided to the definition of "Superintendent" by stating that s/he is a Constitutional Officer under the Florida Constitution and that use of capital "S" "Superintendent" or lower case "s" "superintendent" in policy implies that the Superintendent has authority to delegate his/her responsibilities, unless such delegation is expressly prohibited by law.	Superintendent
123	Standards for Boardmanship	Revised. This bylaw is revised so that the language addressing the standards of boardmanship that are expected of Board members matches that which is set forth in the FSBA Bylaws and Policies.	Superintendent
124	Standards of Ethical Conduct for Board Members	NEW. The bylaw is being added to include the provisions set forth in Section 7 of HB-1279 for F.S. 1001.421. The Bylaw name change is Board requested.	Superintendent
141.2	Conflict of Interest	Revised. Revised to include reference to Bylaw 0124.	Superintendent
147.1	Travel and Per Diem	NEW. The adoption of Bylaw 0147.1 is intended to address certain limitations on Board member travel. Pursuant to Florida Chapter Law 2018-5, Board members seeking to spend \$500.00 for travel outside their county must obtain prior approval from the Board, confirm that such travel is for official business of the Board, and be in compliance with the rules of the State Board of Education. Additionally, Board members seeking to travel outside of Florida must include an itemized list detailing all anticipated travel expenses including, but not limited to, the anticipated costs of all means of travel, lodging, and subsistence. The public must also be given an opportunity to speak on any Board member's specific travel agenda item prior to the Board taking action on whether to approve or deny the travel request.	Superintendent

Summary Points for Recommended Board Policy Changes - Volume 19, Number 2 & Special Release on School Safety			
Policy #	Policy Title	Summary Points	Owner
0165	Meetings	Revised. Board requested. Adding language for the calling of Special Meetings.	Superintendent
9270	Home Education Programs	Revised. Revisions include provisions addressing that the District is not to assign a grade level to a home school student, registration requirements, notification requirements, participation in certain activities, and other minor matters. These revisions are the result of 2018-134. Revisions also include School Board requested additions to mirror Statute.	Superintendent
1242	Professional Development	Revised. Revisions to these policies (#'s 1242, 3242, & 4242) incorporate amendments to F.A.C. Rule 6A-5.071. In November of 2018, FL DOE amended the rule to rename "Master Inservice Plan" to "Professional Learning Catalog." Other amendments to the rule address the content of Catalogs, review/approval processes, and data maintenance/reporting.	Curriculum & Instruction
2371	Hope Scholarships	Revised. On March 1, 2019, the Florida Department of Education (FL DOE) issued a Memorandum to all School District Superintendents regarding the Hope Scholarship Program. See: https://info.fl DOE.org/docushare/dsweb/Get/Document-8483/dps-2019-10.pdf . Importantly, FL DOE strongly takes the position that F.S. 1002.40 does not require substantiation of an incident in order for the District to be required to provide notice to a student's parent of the availability of the Hope Scholarship Program. Neola is of the position that the legislative intent expressed in F.S. 1002.40(1) makes clear that the program should only be available to those students who were "subjected to an incident" as opposed to those who simply report an incident. Policy 2371V1 incorporates Neola's interpretation of F.S. 1002.40.	Curriculum & Instruction
2460.01	Least Restrictive Environment	DELETE. Policy 2460.01 contains language very similar to that in Policy 2460. It is, therefore, in our judgment, duplicative, redundant, and unnecessary. It is recommended that this policy be rescinded by Board action.	Curriculum & Instruction

Policy #	Policy Title	Summary Points	Owner
3242	Professional Development	Revised. Revisions to these policies (#'s 1242, 3242, & 4242) incorporate amendments to F.A.C. Rule 6A-5.071. In November of 2018, FL DOE amended the rule to rename "Master Inservice Plan" to "Professional Learning Catalog." Other amendments to the rule address the content of Catalogs, review/approval processes, and data maintenance/reporting.	Curriculum & Instruction
4242	Professional Development	Revised. Revisions to these policies (#'s 1242, 3242, & 4242) incorporate amendments to F.A.C. Rule 6A-5.071. In November of 2018, FL DOE amended the rule to rename "Master Inservice Plan" to "Professional Learning Catalog." Other amendments to the rule address the content of Catalogs, review/approval processes, and data maintenance/reporting. Policy 4242 was also revised to remove references to "teachers" as opposed to "staff members." The policy pertains to staff members, so teachers should not have been included in the policy.	Curriculum & Instruction
5112	Entrance Requirements	Revised. Special Release-School Safety-May 2019. On May 8, 2019, Florida Governor Ron DeSantis approved Senate Bill 7030 ("SB 7030"). SB 7030 (Florida Chapter Law 2019-22), titled "Implementation of Legislative Recommendations of the Marjory Stoneman Douglas High School Public Safety Commission," includes numerous legislative changes related to school safety and security.	Curriculum & Instruction
5225	Absences for Religious Holidays	Revised. District Requested. Removing the school year dates, as holidays stay the same each year.	Curriculum & Instruction
5500	Student Conduct	Revised. Special Release-School Safety-May 2019. On May 8, 2019, Florida Governor Ron DeSantis approved Senate Bill 7030 ("SB 7030"). 8462	Student Abuse, Abandonment, & Neglect	Revised. District Requested for consistency. The revision to Policy 8462 is technical and merely updates the website link for reporting suspected child abuse, abandonment, or neglect.	Curriculum & Instruction
6233	District Budget	Revised. Policy 6233 was revised as a result of Florida Chapter Law 2018-5 which now requires the superintendent to reduce the District's administrative expenditures if the projected portion of the general fund's ending fund balance not classified as restricted, committed, or nonspendable in the District's approved operating budget falls below three percent (3%) of projected general fund revenues for two consecutive fiscal years.	Finance
6322	Construction Contracting and Bidding	Revised. Policy 6322 was revised to correct a clerical error from the 19-1 release regarding the Board's ability to negotiate directly with a bidder.	Finance
6325	Procurement - Federal Grants/Funds	Revised. Policy 6325 now specifies that the School Board must take affirmative steps to assure that small businesses (in addition to others) are used in accordance with Federal law. Policy 6325 also references AP 6325 which has been revised substantially as addressed infra.	Finance
6480	Expenditures	Revised. This policy was revised to clarify the procedure that must be undertaken by the School Board to amend its budget when it seeks to exceed the amount budgeted by function and object. Additionally, the policy was revised to address spending limitations imposed under Florida law when certain financial conditions exist.	Finance

6550	Travel Expense Reimbursement	Revised. The adoption of Bylaw 0147.1 is intended to address certain limitations on Board member travel. Pursuant to Florida Chapter Law 2018-5, Board members seeking to spend \$500.00 for travel outside their county must obtain prior approval from the Board, confirm that such travel is for official business of the Board, and be in compliance with the rules of the State Board of Education. The public must also be given an opportunity to speak on any Board member's specific travel agenda item prior to the Board taking action on whether to approve or deny the travel request.	Finance
6605	Crowdfunding	Revised. This policy was revised to emphasize that crowdfunding activities must adhere to state and federal laws applicable to student privacy. Additional language was also added to specify that proceeds from crowdfunding activity becomes the property of the District or school and that District personnel are prohibited from accepting cash or equivalent payments. Finally, the definition of "crowdfunding" was slightly modified.	Finance
9211	Parent Organizations, Booster Clubs, and Other Fund-Raising Activities	Revised. The revisions to this policy are intended to more clearly distinguish between school-based and outside support organizations. Moreover, since outside support organizations typically provide financial support to school districts and are involved in school district activities, we included revised policy language that allows school districts to more closely monitor these organizations.	Finance

Language was also added to the policy specifying certain circumstances within which the superintendent may be required to forfeit his/her salary for one (1) year. See, F.S. 1001.42(7).	Human Resources
1590	Personnel File	Revised. Board Requested. Adding Statute language and General Records Schedule reference.	Human Resources
3120	Employment of Instructional Staff	Revised. Revisions to this policy are the result of changes to F.A.C. Rule 6A-1.0503 which now includes a definition for "In-Field." Outdated references to "highly qualified" and "NO CHILD LEFT BEHIND" were also removed.	Human Resources
3130	Appointment, Assignment, Transfer, and Promotion of Instructional Staff	Revised. Reimbursable in-county travel for members of the Board is defined as that travel performed as part of a Board member's duties.

Out-of-County Travel (Within the State of Florida)

Expenditures for travel outside the District are not permitted if any of the financial conditions outlined in F.S. 1011.051, and as set forth in Policy 6233, exist.

If such a financial condition does not exist, when approved in advance, expenses for out-of-county travel for members of the Board members shall be paid at the rate allowed by State law. Copies of receipts for lodging, transportation, tolls, registration fees, and parking must be attached to the traveler's request for reimbursement.

Travel outside the county that exceeds \$500.00 requires prior approval by the Board to confirm that such travel is for official business of the District and complies with rules of the State Board of Education.

Travel Costs Paid or Reimbursed from Federal Funds

Travel payment and reimbursement provided from Federal funds must be authorized in advance and must be reasonable and consistent with the District's travel policy and administrative guidelines. For travel paid for with Federal funds, the travel authorization must include documentation that demonstrates that (1) the participation in the event by the individual traveling is necessary to the Federal award; and (2) the costs are reasonable and consistent with the District's travel policy.

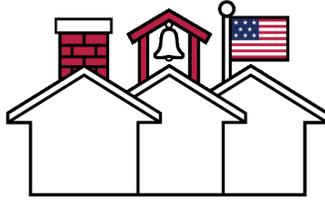

Commercial airfare costs in excess of the basic least expensive unrestricted accommodations class offered by commercial airlines are unallowable except when such accommodations would (1) require circuitous routing; (2) require travel during unreasonable hours; (3) excessively prolong travel; (4) result in additional costs that would offset the transportation savings; or (5) offer accommodations not reasonably adequate for the traveler's medical needs. Instances of commercial airfare cost in excess of the basic least expensive unrestricted accommodations class must be justified and documented on a case-by-case basis.

To the extent that the District's policy does not establish the allowability of a particular type of travel cost, the rates, and amounts established under 5 U.S.C. 5701-11, ("Travel and Subsistence Expenses; Mileage Allowances") must apply to travel under Federal awards.

1242 - PROFESSIONAL DEVELOPMENT

Professional Development System

Pursuant to State law, the School District will work collaboratively with the Florida Department of Education (FLDOE), public postsecondary institutions, State education foundations, teachers, consortia, and professional organizations, and business/community representatives in Florida to maintain a coordinated system of professional development. The purpose of the system is to increase student achievement, enhance classroom instructional strategies that promote rigor and relevance throughout the curriculum and prepare students for continuing education in the workforce.

The District's comprehensive professional development plan will incorporate school improvement plans, will align with the Florida Professional Development System Evaluation Protocol Standards, which support the framework for standards adopted by ~~the Learning Forward National Staff Development Council~~, and will align with the principal leadership training. Furthermore, the results of the performance evaluations of administrators conducted pursuant to State law and Board Policy 1220 will be used when identifying areas for which professional development is needed.

As part of its effort to develop and refine its professional development plan, the District will review and monitor school discipline data; school environment surveys; assessments of parental satisfaction; performance appraisal data of teachers, managers, and administrative personnel; and other performance indicators to identify school and student needs that can be met by improved professional performance.

The Board will provide funding for professional development as required by State law and the General Appropriations Act and will authorize expenditures from other sources to continuously strengthen the District's system of professional development. The plan will also provide for training for each teacher who will use materials that were purchased with funds allocated by the State for instructional materials, provide for in-service credit for the training, and document satisfactory completion of the training by each teacher.

The in-service activities for administrators shall focus on an analysis of student achievement data, the use of the Board-adopted evaluation program for instructional staff, ongoing formal and informal assessments of student achievement, identification and use of enhanced and differentiated instructional strategies that emphasize rigor, relevance, and reading in the content areas, enhancement of subject content expertise, integrated use of classroom technology that enhances teaching and learning, classroom management, parent involvement, and school safety.

The District shall also provide in-service activities and support targeted to the individual needs of new administrators participating in the professional development certification and education competency program.

The Superintendent shall establish and maintain an individual professional development plan for each administrator assigned to a school as a seamless component to the school improvement plans developed pursuant to State law. The individual professional development plan established by the Superintendent shall:

1. define the in-service objectives and specific measurable improvements expected in student performance as a result of the in-service activity;
2. include an evaluation component that determines the effectiveness of the professional development plan;
3. include in-service activities for school administrative personnel that address updated skills necessary for instructional leadership and effective school management;
4. provide for systematic consultation with regional and State personnel designated to provide technical assistance and evaluation of local professional development programs;
5. provide for delivery of professional development by distance learning and other technology-based delivery systems to reach more educators at lower costs;
6. provide for the continuous evaluation of the quality and effectiveness of professional development programs in order to eliminate ineffective programs and strategies and to expand effective ones. Evaluations must consider the impact of such activities on the performance of participating educators and their students' achievement and behavior.

By July 1st of each year and prior to the release of funds for instructional materials, pursuant to statutory requirements, the Superintendent will certify to the Commissioner of Education that the Board has approved a comprehensive professional development plan that requires fidelity of implementation of instructional materials that are in the first two (2) years of the adoption cycle. The report will also include verification that the training was provided.

5500 - **STUDENT CONDUCT**

Respect for law and for those persons in authority shall be expected of all students. This includes conformity to school rules as well as general provisions of law affecting students. Respect for the rights of others, consideration of their privileges, and cooperative citizenship shall also be expected of all members of the school community.

Respect for real and personal property; pride in one's work; achievement within the range of one's ability; and exemplary personal standards of courtesy, decency, and honesty shall be maintained in the schools of this District.

The School Board has zero tolerance for conduct that poses a ~~serious~~ threat to school safety. Zero tolerance policies must apply equally to all students, ~~and are not intended to be rigorously applied to petty acts of misconduct and misdemeanors. This zero tolerance policy does not require the reporting of petty acts of misconduct and misdemeanors to a law enforcement agency. Petty acts of misconduct, include, but are not limited to, disorderly conduct, disrupting a school function, simple assault or battery, verbal abuse or use of profanity, cheating, theft of less than \$300, trespassing, and vandalism of less than \$1,000, possession or use of tobacco, and other school based offenses delineated in the Code of Student Conduct.~~

Florida law requires that students found to have committed one of the following offenses:

- A. bringing a firearm or weapon, as defined in F.S. Chapter 790, to school, to any school function, or onto any school-sponsored transportation, or possessing a firearm at school; or
- B. making a threat or false report, as defined by F.S. 790.162 and 790.163, involving school or school personnel's property, school transportation, or a school-sponsored activity;

shall be expelled, with or without continuing educational services, from the student's regular school for a period of not less than one (1) full year, and shall be referred to mental health services identified by the District and, the criminal justice or juvenile justice system.

The Superintendent may consider the one (1) year expulsion requirement on a case-by-case basis and request that the Board modify the requirement by assigning a student to a disciplinary program or second chance school. The Superintendent's request for modification must be in writing, and may only be presented to the Board for consideration if the student and/or the student's parent(s) agree in writing to accept the Superintendent's recommendation. The Board may approve the request if it is determined to be in the best interest of the student and the school system. If a student committing either of the offenses enumerated above is a student who has a disability, the Board shall comply with applicable State Board of Education rules for discipline of such students.

The District shall enter into agreements with local law enforcement specifying procedures so that acts that pose a ~~serious~~ threat to school safety, whether committed by a student or adult, are reported to a law enforcement agency having jurisdiction.

Those acts that pose a ~~serious~~ threat to school safety include, but are not limited to,:

- A. possession of firearms or other weapons
- B. placing, discharging, or throwing an explosive item or noxious substance or making threats to do so
- C. arson
- D. felony assault
- E. threats of unsafe and potentially harmful, dangerous, violent, or criminal activities

Petty acts of misconduct that are not a threat to school safety do not require consultation with law enforcement.

The following are typically considered petty acts of misconduct, although each act must be examined on a case-by-case basis to determine whether or not the act constitutes a threat to school safety requiring consultation with law enforcement:

- A. disorderly conduct
- B. disrupting a school function
- C. simple assault or battery
- D. verbal abuse or use of profanity
- E. cheating
- F. theft of less than \$300, trespassing, and vandalism of less than \$1,000
- G. possession or use of tobacco

Notwithstanding any other provision of Board policy, pursuant to F.S. 1006.13(5), any student found to have committed an act of assault or aggravated assault, or battery or aggravated battery, on any elected official of the School District, teacher, administrator, or other School District personnel, shall be recommended for expulsion or placement in an alternative school setting, as appropriate, for a minimum period of one (1) year. Upon being charged with such offense, the student shall be removed from the classroom immediately and placed in an alternative school setting pending disposition.

The Code of Student Conduct that is adopted annually shall provide for review of a decision to suspend or expel a student pursuant to this policy and the Code, consistent with F.S. 1006.07.

Furthermore, if the Board receives notice from the Department of Juvenile Justice, as required by law, that a student enrolled in the District has been adjudicated guilty of or delinquent for, or is found to have committed, regardless of whether adjudication is withheld, or pleads guilty or *nolo contendere* to, a felony violation as set forth in F.S. 1006.13(6)(a), the Board shall, pursuant to State law and the adopted cooperative agreement with the Department of Juvenile Justice, require that any no contact order entered by a court be enforced and that all of the necessary steps be taken to protect the victim of the offense, or a sibling of the victim.

Students may be subject to discipline for violation of the Positive Climate and Discipline Code of Student Conduct even if that conduct occurs on property not owned or controlled by the Board but that is connected to activities or incidents that have occurred on property owned or controlled by the Board, or conduct that, regardless of where it occurs, is directed at a Board official or employee, or the property of such official or employee.

The principal shall notify~~require that~~ all school personnel ~~are properly informed~~ as to their responsibilities regarding:

1. incident~~suspicious activity~~ reporting,
2. that ~~appropriate delinquent acts~~acts which pose a threat to school safety and crimes are properly reported to the principal, and
3. that the disposition of the incident is ~~actions taken in cases with special circumstances are~~ properly ~~taken and~~ documented.

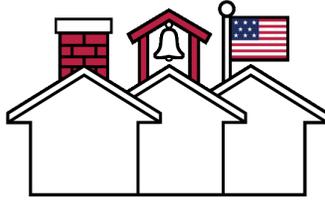

Student conduct shall be governed by the rules and provisions set forth in the Code of Student Conduct which is reviewed and adopted annually in accordance with F.S. Chapter 120.

The Code of Student Conduct shall contain provisions for the assignment of violent or disruptive students to an alternative educational program and/or referral of such students to mental health services identified by the District.

An official of the Department of Children and Family Services or law enforcement agency may interview a student on school property during school hours in order to investigate a claim of child abuse/neglect involving such student or a member of the student's family. If neither the student nor a member of his/her family is the subject of the child abuse/neglect investigation, such agency shall be encouraged to contact the student during non-school hours and investigate the matter off school property, if at all possible.

The Principal shall attempt to contact the parent prior to questioning, unless the investigator specifically requests that s/he not make such contact due to potential impact on the investigation.

The Principal or designated guidance counselor will remain in the room during questioning of the student unless prohibited by the agency investigator.

The School Board is concerned with the physical and mental well-being of the students of this District and requires that staff comply with the mandated identification and reporting of cases of child abuse or neglect in accordance with law.

Reporting Suspected Cases

- A. Any person, including teachers, administrators, support personnel, and other District and school personnel who knows, or has reasonable cause to suspect that a child or a student has been abused, abandoned, or neglected by a parent, legal custodian, caregiver, adult, or other person responsible for the child's welfare or that a child is in need of supervision and care and has no parent, legal custodian, or responsible adult relative immediately known and available to provide supervision and care shall report such knowledge or suspicion to the Department of Children and Families in a manner prescribed by law.

Further any person, including teachers, administrators, support personnel, and other District and school personnel, who knows, or has reasonable cause to suspect, that a child or a student is the victim of childhood sexual abuse or the victim of a known or suspected juvenile sexual offender, shall report such knowledge or suspicion to the Department of Children and Families in a manner prescribed by law.

A person who is required to report known or suspected child abuse, abandonment, or neglect and who knowingly and willfully fails to do so, or who knowingly and willfully prevents another person from doing so commits a felony of the third degree.

- B. The proper procedure for reporting known or suspected cases of child abuse, abandonment, and neglect is:
1. Make a report immediately to the Department of Children and Families central abuse hotline, using the single Statewide toll-free telephone number: 1-800-96-ABUSE (1-800-962-2873), or via fax, web-based chat, or web-based report [at https://www.dcf.state.fl.us/service-programs/abuse-hotline/report-online.shtml](https://www.dcf.state.fl.us/service-programs/abuse-hotline/report-online.shtml). School employees reporting such cases are required to provide their names to the hotline staff. The names of reporters shall be entered into the record of the report, but shall be held confidential and exempt as provided by law.
 2. As soon as practicable after making the report, the school staff member shall inform the principal or supervisor of his/her knowledge or suspicions, and advise that individual that the report has been made.
- C. School employees are to be advised that reporting their knowledge or suspicions of suspected abuse to a principal, or supervisor, or other school or District personnel does not comply with the mandatory reporting requirements of the law. The principal, supervisor, and other school or District personnel who are informed of suspected abuse, abandonment, and neglect likewise have an obligation to report to the central abuse hotline as required by law.

- D. No employee of the District shall be subject to reprisal or discharge because of his/her actions in reporting abuse or neglect pursuant to the requirements of F.S. 39.203.
- E. No Board employee may agree, as a condition of receiving information about child abuse, neglect, or abandonment from a victim, a perpetrator, witness, or other person, that the Board employee will not report this information as required by law and this Board policy.
- F. If the person accused of the abuse or neglect is an employee of the Board and acting in their official capacity:
1. The principal or the principal's designee will report or cause to be reported suspected cases of child abuse, neglect, or abandonment to the appropriate law enforcement agency that come to the attention of school teachers, other school officials, or personnel. This notification must be made immediately.
 2. The appropriate law enforcement agency is the agency which has law enforcement jurisdiction throughout the municipality (municipal law enforcement) or the unincorporated area (sheriff's department) where that alleged abuse occurred. The law enforcement agency having jurisdiction will issue to the reporter an incident report number to document that reporting notification. Include that incident report number, as well as the date and time of notification, as a reference for school-based documentation.
 3. Immediately after notifying law enforcement, report the suspected Board employee involved case by telephone to the Department of Children and Families central abuse hotline, using the single Statewide toll-free telephone number 1-800-96-ABUSE (1-800- 962-2873). School personnel reporting such cases are required to provide their names to the hotline staff. The names of reporters shall be entered into the record of the report, but shall be held confidential as provided by law.

False Reports

A person who knowingly and willfully makes a false report of child abuse, abandonment, or neglect, or who advises another to make a false report, is guilty of a felony of the third degree and may be subject to other penalties in accordance with Florida law.

Posting of Notices

Each school in the District shall:

- A. post in a prominent place in each school a notice that, pursuant to F.S. Chapter 39, all employees and agents of the Board have an affirmative duty to report all actual or suspected cases of child abuse, abandonment, or neglect; have immunity from liability if they report such cases in good faith; and have a duty to comply with child protective investigations and all other provisions of law relating to child abuse, abandonment, and neglect;

The notice shall also include the Statewide toll-free telephone number of the central abuse hotline.

- B. post in a prominent place at each school site and on each school's Internet website, if available, the policies and procedures for reporting alleged misconduct by instructional personnel or school administrators which affects the health, safety, or welfare of a student; the contact person to whom the report is made; and the penalties imposed on instructional personnel or school administrators who fail to report suspected or actual child abuse or alleged misconduct by other instructional personnel or school administrators;
- C. post in a prominent place, in a clearly visible location and public area of the school, readily accessible to and widely used by students, a sign in English and Spanish that contains:
1. the Statewide toll-free telephone number of the central abuse hotline as provided in F.S. Chapter 39;
 2. instructions to call 911 for emergencies; and
 3. directions for accessing the Department of Children and Families Internet website for more information on reporting abuse, neglect, and exploitation.

The notice must be on at least one (1) posted in each school, on a sheet that measures at least 11 inches by 17 inches, produced in large print, and placed at student eye level for each viewing.

Training

All teachers and/or instructional staff members in grades K-12 and all school administrators, psychologists, nurses, and social workers are required to participate in the continuing education training provided by the Department of Children and Family

Services on identifying and reporting child abuse and neglect.

Liaison

The Superintendent will act as a liaison to the Department of Children and Families and the child protection team when a case of suspected child abuse, abandonment, or neglect or an unlawful sexual offense involving a child is referred to such a team.

The Superintendent shall also serve, or nominate a designee to represent the District, on the Local Child Abuse Death Review Committee as required by State law. The Superintendent shall also require District staff, who, in a professional capacity, dealt with a child whose death is verified as caused by abuse or neglect, or with the family of the child, to attend any meetings of the local committee at which the child's case is reviewed.

Liability

Employees who report abuse, abandonment, and/or neglect of a student may be entitled to certain statutory liability protections as set forth in F.S. 39.203.

6233 - DISTRICT BUDGET

The Constitution of the State of Florida requires that the District operate under a balanced budget. The School Board understands that there may be unforeseen circumstances that can result in increases or decreases in revenue and/or expenditures. These circumstances would thereby impact the financial stability of the District.

A. Preparation

The budget shall be prepared and administered in accordance with Florida statutes and in accordance with Policy 6220.

B. Implementation of Budget

Implementation of the Board adopted budget shall give appropriations and reserves therein the force and effect of fixed appropriations and reserves, and the same may only be altered, amended, or exceeded as authorized by Florida statutes or Board policy.

Expenditures may exceed the amount budgeted by function or object provided the Board approves the expenditures and amends the budget no later than the annual due date established by the State Department of Education for submitting the District's annual financial report.

Pursuant to State law, if the Board finds and declares in a resolution adopted at a regular meeting of the Board that the funds received for any of the following categorical appropriations are urgently needed to maintain Board specified academic classroom instruction, or improve school safety, the Board may consider and approve an amendment to the School District operating budget transferring the identified amount of the categorical funds to the appropriate account for expenditure:

1. funds for student transportation;
2. funds for research-based reading instruction;
3. funds for instructional materials.

Such a transfer can only be recommended by the Superintendent and approved by the Board if all instructional materials necessary to provide update materials aligned to Florida adopted State Standards and benchmarks and that meet statutory requirements of content and learning have been purchased for that fiscal year, and such a transfer is recommended by the Superintendent and approved by the Board no sooner than March 1st of the fiscal year. Pursuant to State law, funds for instructional materials available after March 1st may be used to purchase hardware for student instruction.

C. General Fund Ending Fund Balance

Each year the Board's adopted budget shall include a reserve for contingencies of not less than five percent (5%) of the District's general fund revenues. In the event the contingency reserve decreases to less than five percent (5%) of the District's general fund budget, the Superintendent shall prepare for Board approval a financial plan and timeline to restore the unreserved fund balance to the minimum amount set forth herein.

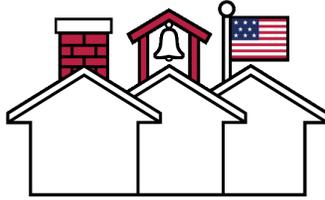

The Superintendent shall provide written notification to the Board and to the Commissioner of Education if at any time the portion of the general fund's ending fund balance not classified as restricted, committed, or nonspendable in the District's operating budget is projected to fall below projected revenues as prescribed by law.

If the projected portion of the general fund's ending fund balance not classified as restricted, committed, or nonspendable in the District's approved operating budget falls below three percent (3%) of projected general fund revenues for two (2) consecutive fiscal years, the Superintendent will reduce the District's administrative expenditures reported pursuant to F.S. 1010.215 in proportion to the reduction in the general fund's ending balance or the reduction in student enrollment, whichever is greater.

Exception to Construction Requirements

The Board may, with a supermajority vote at a public meeting that begins no earlier than 5 p.m., adopt a resolution to implement one (1) or more of the exceptions to the educational facilities construction requirements described below.

Before voting on the resolution, the Board will conduct a cost-benefit analysis prepared according to a professionally accepted methodology that describes how each exception selected by the Board achieves cost savings, improves the efficient use of District resources, and impacts the life-cycle costs and life span for each educational facility to be constructed, as applicable, and demonstrates that implementation of the exception will not compromise student safety or the quality of student instruction.

The Board will conduct at least one (1) public workshop to discuss and receive public comment on the proposed resolution and cost-benefit analysis, to begin no earlier than 5 p.m. The workshop may occur at the same meeting at which the resolution will be voted upon.

The Board's resolution may propose implementation of exceptions to requirements of the uniform Statewide building code for the planning and construction of public educational and ancillary plants relating to the following:

- A. Interior non-load bearing walls by approving the use of fire-rated wood stud walls in new construction or remodeling for interior non-load bearing wall assemblies that will not be exposed to water or located in wet areas.
- B. Walkways, roadways, driveways, and parking areas by approving the use of designated, stabilized, and well-drained gravel or grassed student parking areas.
- C. Standards for relocatables used as classroom space by approving construction specifications for installation of relocatable buildings that do not have covered walkways leading to the permanent buildings onsite.
- D. Site lighting by approving construction specifications for site lighting that:
 1. Do not provide for lighting of gravel or grassed auxiliary or student parking areas.
 2. Provide lighting for walkways, roadways, driveways, paved parking lots, exterior stairs, ramps, and walkways from the exterior of the building to a public walkway through installation of a timer that is set to provide lighting only during periods when the site is occupied.
 3. Allow lighting for building entrances and exits to be installed with a timer that is set to provide lighting only during periods in which the building is occupied. The minimum illumination level at single-door exits may be reduced to no less than one (1) foot-candle.

Change Orders

The Board believes that thoughtful planning should minimize the change orders for any construction or renovation project, but recognizes that all circumstances that might necessitate such changes cannot be anticipated. Any and all change order to construction contracts must be in compliance with Florida statutes and the State Requirements for Educational Facilities both in form and content.

Opening of Competitive Bids

Notwithstanding F.S. 119.071(1)(b), in any competitive solicitation for construction or repairs on a Board building or facility, the Superintendent will:

- A. open the sealed bid, or the portion of the sealed bid that includes the price submitted, at a public meeting conducted in compliance with F.S. 286.011 and Board Bylaw 0164 - Notice of Meetings, and Bylaw 0168 - Minutes;

B. announce the name of each bidder and the price submitted in the bid at that meeting; and

C. make available the name of each bidder and the price submitted in the bid, upon request.

Receipt of Less than Two (2) Responsive Proposals for Contractual Services

In the event the Board receives less than the two (2) responsive proposals for contractual services, the Board may negotiate on the best terms and conditions or decide to reject all proposals. The Board shall document the reasons for the decision to negotiate terms and conditions with the sole proposer in lieu of resoliciting proposals.

Contract Execution

Contracts governed by this policy shall be awarded to the lowest responsive and responsible bidder, considering base bid and accepted alternatives; and be executed pursuant to Policy 6320 - Purchasing and Contracting for Goods and Services. Award of bid by the Board shall only represent an identification by the Board that a bid represents the lowest responsible bid received by the District. Award of bid shall not create a binding obligation on the Board, and no obligation shall be created or imposed on the District until such time as the Board Chair/designee executes a contract in a form satisfactory to the District.

Each Board contract for services must include a provision that requires the contractor to comply with public records laws, specifically to:

- A. keep and maintain public records that ordinarily and necessarily would be required by the Board in order to perform the service under the contract;
- B. provide the public with access to its public records on the same terms and conditions as the Board would provide the records, and at a cost that does not exceed the cost provided in Policy 8310 - Public Records;
- C. ensure that any of its public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed, except as authorized by law;
- D. meet all requirements for retaining public record and, upon termination of the contract, transfer to the Board, at no cost, all public records in its possession and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the Board in a format that is compatible with the Board's information technology systems.

Certified Copy of Recorded Bond

Before commencing the work or before recommencing the work after a default or abandonment, the contractor shall provide to the Board a certified copy of the recorded bond. Notwithstanding the terms of the contract or any other law governing prompt payment for construction services, the Board may not make a payment to the contractor until the contractor has complied with this paragraph. This paragraph applies to contracts entered into on or after October 1, 2012.

4. establishing delivery schedules, where the requirements permits, which encourage participation by small and minority businesses and women's business enterprises;
-
5. using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and
-
6. requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs A through E of this section.

All District employees, officers, and agents who have purchasing authority shall abide by the standards of conduct covering conflicts of interest and governing the actions of its employees, officers, and agents engaged in the selection, award, and administration of contracts as established in Policy 1129, Policy 3129, and Policy 4129 – Conflict of Interest.

The District will avoid acquisition of unnecessary or duplicative items. Additionally, consideration shall be given to consolidating or breaking out procurements to obtain a more economical purchase. And, where appropriate, an analysis shall be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach. These considerations are given as part of the process to determine the allowability of each purchase made with Federal funds.

To foster greater economy and efficiency, the District may enter into State and local intergovernmental agreements where appropriate for procurement or use of common or shared goods and services.

Competition

All procurement transactions paid for from Federal funds or District matching funds shall be conducted in a manner that encourages full and open competition and that is in accordance with good administrative practice and sound business judgement. In order to promote objective contractor performance and eliminate unfair competitive advantage, the District shall exclude any contractor that has developed or drafted specifications, requirements, statements of work, or invitations for bids or requests for proposals from competition for such procurements.

Some of the situations considered to be restrictive of competition include, but are not limited to, the following:

- A. unreasonable requirements on firms in order for them to qualify to do business
- B. unnecessary experience and excessive bonding requirements
- C. noncompetitive contracts to consultants that are on retainer contracts
- D. organizational conflicts of interest
- E. specification of only a "brand name" product instead of allowing for an "or equal" product to be offered and describing the performance or other relevant requirements of the procurement
- F. any arbitrary action in the procurement process

Further, the District does not use statutorily or administratively imposed State, local, or tribal geographical preferences in the evaluation of bids or proposals, unless (1) an applicable Federal statute expressly mandates or encourages a geographic preference; or (2) the District is contracting for architectural and engineering services, in which case geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

To the extent that the District uses a pre-qualified list of persons, firms, or products to acquire goods and services that are subject to this policy, the pre-qualified list includes enough qualified sources as to ensure maximum open and free competition. The District allows vendors to apply for consideration to be placed on the list annually.

The District shall require that all solicitations made pursuant to this policy incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product, or service to be procured and, when necessary, shall set forth those minimum essential characteristics and standards to which it shall conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible.

When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a "brand name or equivalent" description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which shall be met by offers shall be clearly stated; and identify all requirements which the offerors shall fulfill and all other factors to be used in evaluating bids or proposals.

The Board will not approve any expenditure for an unauthorized purchase or contract.

Procurement Methods

The District shall utilize the following methods of procurement:

- A. Micro-purchases

Procurement by micro-purchase is the acquisition of supplies or services, the aggregate dollar amount of which does not exceed \$10,000. To the extent practicable, the District shall distribute micro-purchases equitably among qualified suppliers. Micro-purchases may be made without soliciting competitive quotations if Superintendent considers the price to be reasonable. The District maintains evidence of this reasonableness in the records of all purchases made by this

method.

B. Small Purchases

Small purchase procedures provide for relatively simple and informal procurement methods for securing services, supplies, and other property that does not exceed the competitive bid threshold of \$50,000. Small purchase procedures require that price or rate quotations shall be obtained pursuant to School Board Policy 6320.

C. Sealed Bids

Sealed, competitive bids shall be obtained when the purchase of, and contract for, single items of supplies, materials, or equipment which amounts to \$50,000 and when the Board determines to build, repair, enlarge, improve, or demolish a school building/facility the cost of which will exceed \$50,000.

In order for sealed bidding to be feasible, the following conditions shall be present:

1. a complete, adequate, and realistic specification or purchase description is available;
2. two (2) or more responsible bidders are willing and able to compete effectively for the business; and
3. the procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.

When sealed bids are used, the following requirements apply:

1. Bids shall be solicited in accordance with the provisions of State law and Policy 6320. Bids shall be solicited from an adequate number of qualified suppliers, providing sufficient response time prior to the date set for the opening of bids. The invitation to bid shall be publicly advertised.
2. The invitation for bids will include product/contract specifications and pertinent attachments and shall define the items and/or services required in order for the bidder to properly respond.
3. All bids will be opened at the time and place prescribed in the invitation for bids; bids will be opened publicly.
4. A firm fixed price contract award will be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts may only be used to determine the low bid when prior experience indicates that such discounts are usually taken.
5. The Board reserves the right to reject any or all bids for sound documented reason.

D. Competitive Proposals

Procurement by competitive proposal, normally conducted with more than one source submitting an offer, is generally used when conditions are not appropriate for the use of sealed bids or in the case of a recognized exception to the sealed bid method.

If this method is used, the following requirements apply:

1. Requests for proposals shall be publicized and identify all evaluation factors and their relative importance. Any response to the publicized requests for proposals shall be considered to the maximum extent practical.
2. Proposals shall be solicited from an adequate number of sources.
3. The District shall use its written method for conducting technical evaluations of the proposals received and for selecting recipients.
4. Contracts shall be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.

The District may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection

factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

E. Noncompetitive Proposals

Procurement by noncompetitive proposals allows for solicitation of a proposal from only one source and may be used only when one or more of the following circumstances apply:

1. the item is available only from a single source
2. the public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation
3. the Federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the District
4. after solicitation of a number of sources, competition is determined to be inadequate

Contract/Price Analysis

The District shall perform a cost or price analysis in connection with every procurement action in excess of \$50,000, including contract modifications. A cost analysis generally means evaluating the separate cost elements that make up the total price, while a price analysis means evaluating the total price, without looking at the individual cost elements.

The method and degree of analysis is dependent on the facts surrounding the particular procurement situation; however, the District shall come to an independent estimate prior to receiving bids or proposals.

When performing a cost analysis, the District shall negotiate profit as a separate element of the price. To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

Time and Materials Contracts

The District uses a time and materials type contract only (1) after a determination that no other contract is suitable; and (2) if the contract includes a ceiling price that the contractor exceeds at its own risk. Time and materials type contract means a contract whose cost to the District is the sum of the actual costs of materials, and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, the District sets a ceiling price for each contract that the contractor exceeds at its own risk. Further, the District shall assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

Suspension and Debarment

The District will award contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of the proposed procurement. All purchasing decisions shall be made in the best interests of the District and shall seek to obtain the maximum value for each dollar expended. When making a purchasing decision, the District shall consider such factors as (1) contractor integrity; (2) compliance with public policy; (3) record of past performance; and (4) financial and technical resources.

The Superintendent shall have the authority to suspend or debar a person/corporation, for cause, from consideration or award of further contracts. The District is subject to and shall abide by the nonprocurement debarment and suspension regulations implementing Executive Orders 12549 and 12689, 2 C.F.R. Part 180.

Suspension is an action taken by the District that immediately prohibits a person from participating in covered transactions and transactions covered under the Federal Acquisition Regulation (48 C.F.R. chapter 1) for a temporary period, pending completion of an agency investigation and any judicial or administrative proceedings that may ensue. A person so excluded is suspended. (2 C.F.R. Part 180 Subpart G)

Debarment is an action taken by the Superintendent to exclude a person from participating in covered transactions and transactions covered under the Federal Acquisition Regulation (48 C.F.R. chapter 1). A person so excluded is debarred. (2 C.F.R. Part 180 Subpart H)

The District shall not subcontract with or award subgrants to any person or company who is debarred or suspended. For contracts over \$25,000, the District shall confirm that the vendor is not debarred or suspended by either checking the Federal government's System for Award Management, which maintains a list of such debarred or suspended vendors at www.sam.gov; collecting a certification from the vendor; or adding a clause or condition to the covered transaction with that vendor. (2 C.F.R. Part 180 Subpart C)

Maintenance of Procurement Records

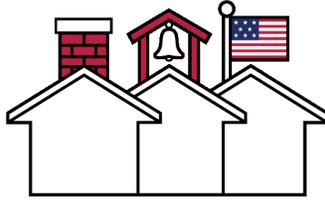

The District maintains records sufficient to detail the history of all procurements. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection, or rejection, and the basis for the contract price (including a cost or price analysis).

1590 - **PERSONNEL FILE**

It is necessary for the orderly operation of the School District to prepare a personal information system for the retention of appropriate files bearing upon an employee's duties and responsibilities to the District and the District's responsibilities to the employee.

The School Board requires that sufficient records exist to determine an employee's qualifications for the job held, compliance with Federal, State, and local benefit programs, conformance with District rules, and evidence of completed evaluations. Such records will be kept in compliance with the laws of the State of Florida. Materials relating to work performance, discipline, suspension, or dismissal will be reduced to writing and signed by a person competent to know the facts or make the judgment. The resignation or termination of an employee before an investigation of alleged misconduct by the employee affecting the health, safety, or welfare of a student is concluded must be clearly indicated in an employee's personnel file.

The term personnel file as used in this section shall mean all records, information, data, or materials maintained by a public school system, in any form or retrieval system whatsoever, with respect to any of its instructional staff, which are uniquely applicable to that employee, whether maintained in one (1) or more locations.

Only that information which pertains to the professional role of the employee and submitted by duly authorized school administrative personnel and the Board may be entered in the official record file.

Pursuant to State law, a complaint of misconduct against a District employee, and all information obtained pursuant to an investigation by the District of the complaint of misconduct, are confidential and exempt from inspection or copying until the investigation ceases to be active, or until the District provides written notice to the employee who is the subject of the complaint, in the manner set forth below, that the District has either:

- A. concluded the investigation with a finding not to proceed with disciplinary action or file charges, or
- B. concluded the investigation with a finding to proceed with disciplinary action and/or to file charges. If the investigation results in such a finding, the District shall also file a legally sufficient complaint regarding the misconduct as required by State law and Policy 8141 - Mandatory Reporting of Misconduct by Certificated Employees.

For the purpose of this subsection, a preliminary investigation shall be considered active as long as it is continuing with a reasonable, good faith anticipation that an administrative finding will be made in the foreseeable future. An investigation shall be presumed to be inactive, if no finding relating to probable cause is made within 60 days after the complaint is made. This subparagraph does not absolve the school district of its duty to provide any legally sufficient complaint to the department within 30 days after the date on which the subject matter of the complaint comes to the attention of the school district pursuant to s. 1012.796(1)(d)1., regardless of the status of the complaint.

Materials relating to work performance, discipline, suspension, or dismissal must be reduced to writing and signed by a person competent to know the facts or make the judgment.

The resignation or termination of an employee before an investigation of alleged misconduct by the employee affecting the health, safety, or welfare of a student is concluded must be clearly indicated in the employee's personnel file.

~~Regardless of the status of an investigation, any legally sufficient complaint will be filed in writing with Florida Department of Education (FLDOE) within thirty (30) days after the date on which the subject matter of the complaint comes to the attention of the District pursuant to F.S. 1012.796(1)(d)1. A complaint is legally sufficient if it contains ultimate facts that show a violation has occurred as provided in F.S. 1012.795 and defined by rule of the State Board of Education.~~

Any material that is derogatory to an employee shall not be open to inspection for an additional ten (10) days after the employee has been notified either:

- A. by certified mail, return receipt requested, to his/her address of record; or
- B. by personal delivery. The employee's signature on a copy of the materials to be filed shall be proof that such materials were given to the employee, with the understanding that such signature merely signifies receipt and does not necessarily indicate agreement with its contents.

No record in a personnel file which is confidential and exempt from inspection and copying pursuant to applicable law shall be disclosed except as provided by applicable law.

The Superintendent shall maintain a record in each personnel file of those persons reviewing the files each time they are reviewed.

A copy of each such entry shall be given to the employee upon request.

The employee shall have access to his/her file upon request.

Notwithstanding other provisions of this subsection, all aspects of the personnel file of each employee shall be made available to law enforcement personnel in the conduct of a lawful criminal investigation.

DISCIPLINARY CASE FILES: EMPLOYEES Item #98 This record series documents the investigation of allegations of employee misconduct and/or violation of department regulations or orders, state or federal statutes, or local ordinances. The series may include, but is not limited to, statements by the employee, witnesses, and the person filing the complaint. Cases include both formal and informal disciplinary proceedings relating to allegations that were determined as sustained, not sustained, unfounded, or exonerated. "Formal discipline" is defined as disciplinary action involving demotion, removal from office, suspension, or other similar action. "Informal discipline" is defined as any disciplinary action involving written and verbal reprimands, memoranda, or other similar action. These records are filed separately from the employee personnel file, but the final action summary becomes part of the personnel file. See also "EMPLOYEE CONDUCT COUNSELING RECORDS," "PERSONNEL RECORDS" items, and "STAFF ADMINISTRATION RECORDS." RETENTION: 5 anniversary years after final action.

Appointment and Assignment

When developing his/her recommendation for appointments of instructional staff, the Superintendent shall consider nominations for staff appointments submitted by the principals. Further, if the Superintendent intends to recommend placement of a staff member in a school who was not nominated by the principal, the Superintendent will consult with that principal. In accordance with State law, a principal may refuse to accept the Superintendent's proposed assignment of an instructional staff member to his/her school unless that instructional staff member has a performance rating of effective or highly effective under F.S. 1012.34.

After such required consideration and consultation, the Superintendent shall submit written recommendations with regard to the appointment and assignment of instructional staff for Board action.

The Board shall act not later than three (3) weeks following the receipt of State mandated testing scores and data, including school grades, or June 30th, whichever is later, on the Superintendent's nominations of supervisors, principals, and members of the instructional staff.

In accordance with State law, the Board may reject the Superintendent's recommendation for initial appointment and assignment, or re-appointment and assignment, for good cause.

The Board authorizes the Superintendent to temporarily reassign employees when the Superintendent determines that it is in the employee's and/or School District's best interest(s). If such reassignment is in excess of fifteen (15) workdays, the Superintendent shall inform the Board.

Assignment to Schools Graded "D" or "F"

Pursuant to statutory requirements, the percentage of temporarily certified teachers, teachers in need of improvement, or out-of-field teachers assigned to schools graded "D" or "F" under State law shall not be greater than the District average. Such assignments shall be consistent with the collective bargaining agreement.

A newly hired instructional staff member may be assigned to a school that has earned a grade of "F" in the previous year, or any combination of three (3) consecutive grades of "D" or "F" in the previous years, if the individual:

- A. has received an "effective" or "highly effective" rating in the immediate prior year's performance evaluation;

- B. has successfully completed or is enrolled in a teacher preparation program, is provided with high-quality mentoring during the first two (2) years of employment, holds a professional certificate and holds a probationary contract; or
- C. holds a probationary contract, holds a professional certificate and has successful teaching experience, and if, in the judgment of the school principal students would benefit from the placement of that individual.

The Superintendent will annually certify to the Commission of Education that these requirements are being met. If these requirements are not met and the Superintendent cannot certify, the Board shall be informed immediately.

Assignment to Teacher Preparation Programs

All instructional personnel who supervise or direct teacher preparation students during field experience courses or internships in which candidates demonstrate an impact on student learning growth must have evidence of "clinical educator" training, a valid professional certificate and at least three (3) years K-12 teaching experience and must have earned an "effective" or "highly effective" rating on the prior year's performance evaluation or be a peer evaluator under the District's evaluation system.

All instructional personnel who supervise or direct teacher preparation students during field experience courses or internships in another state, in which a candidate demonstrates an impact on student learning growth, through a Florida online or distance program must have received "clinical educator" training or its equivalent in that state, hold a valid professional certificate issued by the state in which the field experience takes place, and have at least three (3) years of K-12 teaching experience.

All instructional personnel who supervise or direct teacher preparation students during field experience courses or internships, in which a candidate demonstrates an impact on student learning growth, on a United States military base in another country through a Florida online or distance program must have received "clinical educator" training or its equivalent, hold a valid professional certificate issued by the United States Department of Defense or a state or territory of the United States, and have at least three (3) years of K-12 teaching experience.

Teachers Teaching Out-of-Field

"Out-of-field" means a teacher is assigned to a course covering subject matter outside the field for which the teacher holds a certificate pursuant to F.S. 1012.55 or for which the teacher has not demonstrated sufficient subject matter expertise pursuant to F.S. 1012.42 and as determined by F.A.C. 6A-1.0503, (2)(a)-(h).

A. Out-of-Field Teacher Plan

The Superintendent shall prepare a plan to assist any teacher teaching out-of-field with priority consideration to be given in professional development activities.

The plan must include provisions that require out-of-field teachers to participate in a certification or staff development program designed to provide the teachers with the competencies required for their assigned duties.

The plan must also include duties of administrative personnel and other instructional personnel to provide students with instructional services.

The plan shall be reviewed and considered for adoption by the Board during a publicly-noticed meeting.

B. Notification Requirements and Transfer Requests

When a teacher is assigned instructional duties in a class containing subject matter outside the field in which the teacher is certified, outside the field that was the applicant's minor field of study, or outside the field in which the applicant has demonstrated sufficient subject area expertise, as determined by the State Board of Education rule (F.A.C. 6A-1.0503), the parents of all students in the class shall be notified in writing of such assignment.

The Board shall report out-of-field teachers on the District's website within thirty (30) days before the beginning of each semester.

A parent whose student is assigned an out-of-field teacher may request that their child be transferred to an in-field classroom teacher within the school and grade in which the student is currently enrolled through the process set forth in Policy 5780.

Promotion and Transfer

Pursuant to State law, the Superintendent's primary consideration in recommending an individual for promotion must be the individual's demonstrated effectiveness pursuant to State law.

Before transferring an instructional staff member from one (1) school to another, the Superintendent shall consult with the principal of the school to which the teacher will be assigned and allow the principal the opportunity to review the teacher's records, including student performance demonstrated under F.S. 1012.34, and interview the teacher. If, in the judgment of the principal, students would not benefit from the placement, an alternative placement may be sought. A principal may refuse to accept the Superintendent's assignment or transfer of an instructional staff member who holds a professional teaching certificate to his/her school, unless that instructional staff member has a performance rating of effective or highly effective under F.S. 1012.34.

After the required considerations and consultations, the Superintendent shall submit written recommendations with regard to the promotion or transfer of instructional staff for Board action.

In accordance with State law, the Board may reject the Superintendent's recommendation for the transfer or promotion of an instructional staff member for good cause.

Required Reporting

The Superintendent must annually notify the parent of any student who is assigned to classroom with a teacher having two (2) consecutive annual performance evaluation ratings of unsatisfactory, two (2) annual performance evaluation ratings of unsatisfactory within a three (3) year period, or three (3) consecutive annual performance evaluation ratings of needs improvement or a combination of needs improvement and unsatisfactory.

Duties, Days, and Hours

The Superintendent shall make known through administrative channels the duties, days, and hours of the various classes of instructional personnel.

- A. Instructional staff members shall perform the duties required by Florida statutes, Board policy, and the collective bargaining agreement, as well as other reasonable duties as may be assigned by their immediate supervisor. Failure to perform such duties in an acceptable manner shall constitute a violation of the instructional staff member's contract and just cause for disciplinary action.
- B. Instructional staff members are responsible for student control and supervision at any location on campus or during school-sponsored activities.
- C. Instructional staff members shall not permit their family members or friends by their presence to interfere with performance of their duties during working hours.

~~"Relative" means an individual who is related to the supervisor as father, mother, son, daughter, brother, sister, uncle, aunt, first cousin, nephew, niece, husband, wife, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half-brother, half-sister, grandfather, grandmother, grandchild.~~ For purposes of this policy, a "relative" is an individual included within the definition of "relative" set forth in F.S. 112.3135, which includes the following individuals: father, mother, son, daughter, brother, sister, uncle, aunt, cousin, nephew, niece, husband, wife, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, any in-law relationship, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half-brother, half-sister, or living in the same residence.

3220 - **EVALUATION OF INSTRUCTIONAL PERSONNEL**

Pursuant to State law, evaluations shall be conducted for the purpose of increasing student learning growth by improving the quality of instructional services in the District. The instructional personnel performance evaluation system is a product of negotiations with the Indian River County Education Association (IRCEA). Except for classroom teachers who are newly hired in the District and excluding substitute teachers, a performance evaluation must be conducted for each instructional staff member at least once per year. Newly hired teachers must be observed and evaluated twice during their first year of teaching in the District.

The Principal is responsible for the performance of all personnel employed by the School Board and assigned to the school to which the Principal is assigned. The Principal shall appropriately and effectively apply the personnel evaluation system that has been recommended by the Superintendent and approved by the Board, and approved, as required by State law, by the Florida Department of Education.

Instructional Personnel Evaluation System

The performance evaluation of instructional personnel must be based upon the performance of students assigned to their classrooms. The performance evaluation system must be based upon sound educational principles and contemporary research in effective educational practices. The District's performance evaluation system is not limited to basing unsatisfactory performance of instructional personnel solely upon student performance, but may include other criteria to evaluate instructional personnel performance, or any combination of student performance and other criteria. All personnel must be fully informed of the criteria, data sources, methodologies, and procedures associated with the evaluation process before the evaluation takes place. Additionally, the Principal shall assist the teachers within the school to use student assessment data, as measured by student learning growth gains pursuant to State law for self-evaluation and improvement.

The evaluation system for instructional personnel will:

- A. be designed to support effective instruction and student learning growth, and performance evaluation results must be used when developing District and school level improvement plans;
- B. provide appropriate instruments, procedures, timely feedback, and criteria for continuous quality improvement of the professional skills of instructional personnel, and performance evaluation results must be used when identifying professional development;
- C. include a mechanism to examine performance data from multiple sources, including opportunities for parents to provide input into employee performance evaluations when appropriate;
- D. identify those teaching fields for which special evaluation procedures and criteria are necessary;
- E. differentiate among four (4) levels of performance as follows:

1. highly effective
2. effective
3. needs improvement or, for instructional personnel in the first three (3) years of employment who need improvement, developing
4. unsatisfactory

F. provide for training and monitoring programs based upon guidelines provided by the Department of Education to ensure that all individuals with evaluation responsibilities understand the proper use of the evaluation criteria and procedures.

Evaluation Procedures and Criteria

Evaluation procedures and criteria must comply with, but are not limited to, the following:

A. Performance of Students

At least fifty percent (50%) of the performance evaluation for instructional personnel must be based upon the data and indicators of student performance of the teacher's students as determined by the District in accordance with F.S. 1012.34(7). The performance of students shall also include growth or achievement data of the teacher's students for at least three (3) years or, if less than three (3) years is available, the years for which data are available. The proportion of growth or achievement data may be determined by instructional assignment.

For classroom teachers of grades and subjects for which their students' performance is assessed by Statewide standardized assessments, the District ~~may~~ shall measure student learning growth using the formulas approved by the Commissioner and the standards for performance levels adopted by the State Board for courses associated with the Statewide, standardized assessments administered under F.S. 1008.22 no later than the school year immediately following the year the formula is approved by the Commissioner (see F.A.C. 6A-5.030 and 6A-5.0411).

For classroom teachers of grades and subjects for which their students' performance is not assessed by Statewide standardized assessments, the District shall use the methodology set forth in the District's evaluation plan that is submitted to and approved by the FLDOE to measure the student's performance upon which to base one-half (1/2) of the performance evaluation.

For instructional personnel who are not classroom teachers, the District shall use the methodology set forth in the District's evaluation plan that is submitted to and approved by the FLDOE to measure the student's performance upon which to base one-half (1/2) of the performance evaluation.

Pursuant to State law, the proportion of growth or achievement data in the District-determined student performance measures may be determined by instructional assignment.

B. Instructional Practice

The remainder of the performance evaluation must be based upon instructional practice. Evaluation criteria used when annually observing classroom teachers, as defined in F.S. 1012.01(2)(a), excluding substitute teachers, must include indicators based upon each of the Florida Educator Accomplished Practices adopted by the State Board of Education. For instructional personnel who are not classroom teachers, evaluation criteria must be based upon indicators of the Florida Educator Accomplished Practices and may include specific job expectations related to student support.

The individual responsible for supervising the employee must evaluate the employee's performance. The evaluation system may provide for the evaluator to consider input from other personnel trained under F.S. 1012.34(2). The evaluator must submit a written report of the evaluation to the Superintendent for the purpose of reviewing the employee's contract. The evaluator must submit the written report to the employee no later than ten (10) days after the evaluation takes place. The evaluator must discuss the written evaluation report with the employee. The employee shall have the right to initiate a written response to the evaluation, and the response shall become a permanent attachment to his or her personnel file.

The evaluation shall be completed and on file in accordance with the time schedule established by the Superintendent. The written report of the evaluation must be on file and provided to the employee within ten (10) days after the evaluation conference. The evaluator must discuss the written evaluation report with the employee. The employee shall have the right to initiate a written response to the evaluation, and the response shall become a permanent attachment to his/her personnel file. The evaluator may amend an evaluation based upon assessment data from the current year if the data becomes available within ninety (90) days after the close of the school year.

If an employee who holds a professional service contract is not performing his/her duties in a satisfactory manner, the evaluator shall notify the employee in writing of such determination. The notice must describe such unsatisfactory performance and include notice of the procedural requirements set forth in F.S. 1012.34(4).

An evaluation shall be submitted at the time an instructional staff member leaves the District if services terminate prior to annual evaluations.

An instructional staff member shall be given a copy of any documents relating to his/her performance that are to be placed in the personnel file.

A portion of each instructional staff member's compensation shall be based on the employee's performance evaluation as required by State law.

In addition, the Superintendent shall annually report the evaluation results of instructional staff members using the four (4) levels of performance set forth in State law to the FLDOE. The results shall be provided by school and shall be disaggregated by classroom teachers, as defined in State law, excluding substitute teachers, and all other instructional personnel, also as defined in State law.

The Superintendent shall also notify the FLDOE of any instructional staff members who receive two (2) consecutive unsatisfactory evaluations, as well as any instructional personnel who are given written notice by the District of intent to terminate or not renew their employment.

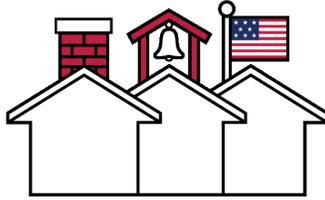

Annual Review of District Instructional Personnel Evaluation System

The Superintendent shall develop procedures for annual review of the instructional staff evaluation system to analyze whether it complies with Florida law and this policy. All substantial revisions to the evaluation system must be reviewed and approved by the Board, upon the recommendation of the Superintendent, before being submitted to the Florida Department of Education for Approval and being used to evaluate instructional personnel. Substantial revisions are those that would cause an amendment to which performance levels would be assigned to instructional personnel.

3590 - PERSONNEL FILE

It is necessary for the orderly operation of the School District to prepare a personal information system for the retention of appropriate files bearing upon an employee's duties and responsibilities to the District and the District's responsibilities to the employee.

The School Board requires that sufficient records exist to determine an employee's qualifications for the job held, compliance with Federal, State, and local benefit programs, conformance with District rules, and evidence of completed evaluations. Such records will be kept in compliance with the laws of the State of Florida. Materials relating to work performance, discipline, suspension, or dismissal will be reduced to writing and signed by a person competent to know the facts or make the judgment. The resignation or termination of an employee before an investigation of alleged misconduct by the employee affecting the health, safety, or welfare of a student is concluded must be clearly indicated in an employee's personnel file.

The term personnel file as used in this section shall mean all records, information, data, or materials maintained by a public school system, in any form or retrieval system whatsoever, with respect to any of its instructional staff, which are uniquely applicable to that employee, whether maintained in one (1) or more locations.

Only that information which pertains to the professional role of the employee and submitted by duly authorized school administrative personnel and the Board may be entered in the official record file.

Pursuant to State law, a complaint of misconduct against a District employee, and all information obtained pursuant to an investigation by the District of the complaint of misconduct, are confidential and exempt from inspection or copying until the investigation ceases to be active, or until the District provides written notice to the employee who is the subject of the complaint, in the manner set forth below, that the District has either:

- A. concluded the investigation with a finding not to proceed with disciplinary action or file charges, or
- B. concluded the investigation with a finding to proceed with disciplinary action and/or to file charges. If the investigation results in such a finding, the District shall also file a legally sufficient complaint regarding the misconduct as required by State law and Policy 8141 - Mandatory Reporting of Misconduct by Certificated Employees.

For the purpose of this subsection, a preliminary investigation shall be considered active as long as it is continuing with a reasonable, good faith anticipation that an administrative finding will be made in the foreseeable future. An investigation shall be presumed to be inactive, if no finding relating to probable cause is made within 60 days after the complaint is made. This subparagraph does not absolve the school district of its duty to provide any legally sufficient complaint to the department within 30 days after the date on which the subject matter of the complaint comes to the attention of the school district pursuant to s. 1012.796(1)(d)1., regardless of the status of the complaint.

-

Materials relating to work performance, discipline, suspension, or dismissal must be reduced to writing and signed by a person competent to know the facts or make the judgment.

The resignation or termination of an employee before an investigation of alleged misconduct by the employee affecting the health, safety, or welfare of a student is concluded must be clearly indicated in the employee's personnel file.

~~Regardless of the status of an investigation, any legally sufficient complaint will be filed in writing with Florida Department of Education (FLDOE) within thirty (30) days after the date on which the subject matter of the complaint comes to the attention of the District pursuant to F.S. 1012.796(1)(d)1. A complaint is legally sufficient if it contains ultimate facts that show a violation has occurred as provided in F.S. 1012.795 and defined by rule of the State Board of Education.~~

Any material that is derogatory to an employee shall not be open to inspection for an additional ten (10) days after the employee has been notified either:

- A. by certified mail, return receipt requested, to his/her address of record; or
- B. by personal delivery. The employee's signature on a copy of the materials to be filed shall be proof that such materials were given to the employee, with the understanding that such signature merely signifies receipt and does not necessarily indicate agreement with its contents.

No record in a personnel file which is confidential and exempt from inspection and copying pursuant to applicable law shall be disclosed except as provided by applicable law.

The Superintendent shall maintain a record in each personnel file of those persons reviewing the files each time they are reviewed.

A copy of each such entry shall be given to the employee upon request.

The employee shall have access to his/her file upon request.

Notwithstanding other provisions of this subsection, all aspects of the personnel file of each employee shall be made available to law enforcement personnel in the conduct of a lawful criminal investigation.

DISCIPLINARY CASE FILES: EMPLOYEES Item #98 This record series documents the investigation of allegations of employee misconduct and/or violation of department regulations or orders, state or federal statutes, or local ordinances. The series may include, but is not limited to, statements by the employee, witnesses, and the person filing the complaint. Cases include both formal and informal disciplinary proceedings relating to allegations that were determined as sustained, not sustained, unfounded, or exonerated. "Formal discipline" is defined as disciplinary action involving demotion, removal from office, suspension, or other similar action. "Informal discipline" is defined as any disciplinary action involving written and verbal reprimands, memoranda, or other similar action. These records are filed separately from the employee personnel file, but the final action summary becomes part of the personnel file. See also "EMPLOYEE CONDUCT COUNSELING RECORDS," "PERSONNEL RECORDS" items, and "STAFF ADMINISTRATION RECORDS." RETENTION: 5 anniversary years after final action.

The Board requires all employees to comply with Board Policy 4124 on drug-free schools which prohibits the possession, use, sale, or distribution of alcohol and any controlled substance on school property at all times. Further, the Board concurs with the Federal requirement that all CDL license holders should be free of any influence of alcohol or controlled substance while on duty.

The Board directs the Superintendent to establish a drug and alcohol testing program whereby any staff member performing safety-sensitive functions, is tested for the presence of alcohol in his/her system as well as for the presence of the following controlled substances:

A. Marijuana

B. Cocaine

- C. Opioids
- D. Amphetamines

- F. on a follow-up basis.

Candidates shall also be tested for the presence of alcohol in their system prior to employment.

Any staff member who is subject to drug tests in accordance with this policy and who tests positive shall be:

- A. prohibited from performing safety-sensitive functions;
- B. referred to the District's Employee Assistance Program;
- C. subject to discipline, up to and including discharge, in accordance with District procedures and the terms of any applicable collective bargaining agreements.

Furthermore, if during any test the lab determines that an adulterant has been added to the specimen, then the test will be considered positive.

Any staff member who refuses to submit to a test shall be prohibited from performing or continuing to perform his/her safety-sensitive functions and may be subject to disciplinary action up to and including termination.

A staff member who voluntarily discloses that they have an addiction to alcohol or controlled substances may participate in the Employee Assistance Program, and will qualify for the receipt of medical insurance benefits for treatment of alcohol or substance abuse, including follow-up care, to the extent that such benefits are provided for or offered in the Board's health insurance package. Voluntary disclosure of an alcohol or drug addiction by a staff member will not subject the staff member to disciplinary action unless such disclosure is made after the staff member is selected to be tested or immediately prior to the selection of staff members to be tested. Nothing herein shall prevent the Board from disciplining a staff member for misconduct associated with his/her alcohol and/or drug use regardless of whether the employee has disclosed that s/he has an alcohol or drug addiction.

A staff member will be subject to disciplinary action, up to and including termination, for any of the following reasons:

- A. reports for duty or performs work while having an alcohol concentration of 0.02 or greater
- B. reports for duty or performs work while testing positive for using a prohibited drug, or while being under the influence of a prohibited drug
- C. refuses to submit to drug and/or alcohol testing
- D. alters or attempts to alter or unduly influence alcohol and/or drug testing results
- E. fails to remain readily available for post-accident testing (including notifying his/her supervisor of his/her location, if the staff member leaves the scene of the accident prior to the submission of a post-accident test unless the staff member's departure is to obtain necessary emergency medical care)

Prior to the beginning of the testing program, the District shall provide a drug-free awareness program which will inform each employee holding a safety-sensitive position about:

- A. the dangers of illegal drug use and controlled substance and alcohol abuse;

B. Board Policy 4124 - Drug-Free Workplace, Policy 4161 - Fitness for Duty, Policy 4170 - Substance Abuse, and Policy 4170.01 - Employee Assistance Program;

C. the sanctions that may be imposed for violations of Policy 4124.

All time spent undergoing alcohol or controlled substance tests, including travel time, will be paid at the staff member's regular rate of pay, or at his/her overtime rate, if applicable. Any staff member who is not allowed to return to work while awaiting test results will be compensated during the waiting period for all work time lost, including overtime, if applicable. The Board shall pay all costs associated with the administration of alcohol and controlled substance tests. This includes testing of the "split specimen" at a Federally certified laboratory if so requested by a staff member. The Board will not pay for the employee's time while not on duty if the split specimen test results are positive.

Alcohol and drug test results shall be protected as confidential medical records as appropriate under the Americans With Disabilities Act (i.e. test results shall be provided on a right to know basis).

A tested individual, upon written request, will have access to any records relating to his/her use of drugs and alcohol, including any records pertaining to his/her drug and alcohol tests. A tested individual must provide written authorization before his/her test result can be provided to any other person except a government agency specified in the applicable Federal regulations.

All tests shall be conducted in accordance with Federal testing procedures and be performed by a laboratory that is Federally certified (i.e. testing procedures and devices used will be as set forth in 49 C.F.R. Part 40).

The alcohol and drug testing program shall be under the direction of the Superintendent.

The Superintendent shall arrange for the required amount of training for appropriate staff members in drug recognition, in the procedures for testing, and in the proper assistance of staff members who are subject to the effects of substance abuse.

The Superintendent shall submit, for Board approval, a contract with a certified laboratory to provide the following services:

- A. testing of all first and second test urine samples
- B. clear and consistent communication with the District's Medical Review Officer (MRO)
- C. methodology and procedures for conducting random tests for controlled substances and alcohol
- D. preparation and submission of all required reports to the District, the MRO, and to Federal and State governments

The Superintendent shall also select the agency or persons who will conduct the alcohol breathalyzer tests, the District's MRO, and the drug collection site(s) in accordance with the requirements of the law.

Educational Materials Related to Certain Federal Regulations, Board Policies, and Procedures

CDL license holders and other employees who perform safety-sensitive functions will be provided educational materials at the time of hire or at any time when required to operate a school vehicle. The educational materials shall explain the requirements of applicable Federal regulations and the Board's policies and District's procedures with respect to meeting these Federal regulations. The Board designates the Coordinator of Risk Management as the individual responsible for providing educational materials to CDL license holders and other employees who perform safety-sensitive functions. The educational materials will include, at a minimum, the following:

- A. the contact information for the Coordinator of Risk Management designated by the Board to answer questions about the education materials

- C. information sufficient to make clear to employees the period of the work day during which they are required to comply with the regulations
- D. information concerning prohibited conduct
- E. the circumstances under which employees are subject to testing for alcohol and/or controlled substances
- F. the procedures for testing for the presence of alcohol and controlled substances in order to protect the employee and the integrity of the testing process, to safeguard the validity of the test results, and to confirm the results are attributed to the correct employee, including post-accident information, procedures, and instructions required under Federal regulations

- G. the requirement that staff members must submit to alcohol and controlled substance testing as required by the regulations
- H. an explanation of what constitutes a refusal to be tested for alcohol or controlled substances and the attendant consequences
- I. the consequences of testing positive, including the requirements of immediate removal from safety-sensitive functions, and the procedures regarding referral, evaluation, and treatment
- J. the consequences for a test indicating an alcohol concentration greater than 0.02, but less than 0.04
- K. information concerning the effects of alcohol and drug misuse on an individual's health, work, and personal life; signs and symptoms of an alcohol problem (the employee's or a co-worker's); and available methods of intervening when a drug or alcohol problem is suspected (including confrontation and how to refer someone to an Employee Assistance Program or to management), and
- L. information regarding the requirement that certain personal information collected and maintained under 49 C.F.R. 382.601 be reported to the Commercial Driver's License Drug and Alcohol Clearinghouse

These materials are to be distributed to each staff member upon being hired or transferred into a covered position thereafter. Each staff member must sign a statement certifying receipt of these materials. Each employee (and labor organization representing Board employees) shall receive written notice of the availability of this information, and the identity of the Board's designated representative in charge of answering employee questions about the materials.

Return-to-Duty (Safety-Sensitive Positions)

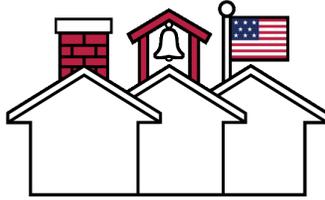

Employees who are removed from performing safety-sensitive functions as a result of this policy must take and pass a return-to-duty test before returning to performing safety-sensitive functions. The return-to-duty test will not occur until after a Substance Abuse Professional (SAP) has determined that the employee has successfully complied with prescribed education and/or treatment. The employee must have a negative drug test result and/or an alcohol test with an alcohol concentration of less than 0.02 before resuming performance of safety-sensitive duties.

Subject to any collective bargaining agreement or other legal requirements, employees who are eligible to return to performing safety-sensitive functions may not do so without the approval of the Superintendent.

4590 - **PERSONNEL FILE**

It is necessary for the orderly operation of the School District to prepare a personal information system for the retention of appropriate files bearing upon an employee's duties and responsibilities to the District and the District's responsibilities to the employee.

The School Board requires that sufficient records exist to determine an employee's qualifications for the job held, compliance with Federal, State, and local benefit programs, conformance with District rules, and evidence of completed evaluations. Such records will be kept in compliance with the laws of the State of Florida. Materials relating to work performance, discipline, suspension, or dismissal will be reduced to writing and signed by a person competent to know the facts or make the judgment. The resignation or termination of an employee before an investigation of alleged misconduct by the employee affecting the health, safety, or welfare of a student is concluded must be clearly indicated in an employee's personnel file.

The term personnel file as used in this section shall mean all records, information, data, or materials maintained by a public school system, in any form or retrieval system whatsoever, with respect to any of its instructional staff, which are uniquely applicable to that employee, whether maintained in one (1) or more locations.

Only that information which pertains to the professional role of the employee and submitted by duly authorized school administrative personnel and the Board may be entered in the official record file.

Pursuant to State law, a complaint of misconduct against a District employee, and all information obtained pursuant to an investigation by the District of the complaint of misconduct, are confidential and exempt from inspection or copying until the investigation ceases to be active, or until the District provides written notice to the employee who is the subject of the complaint, in the manner set forth below, that the District has either:

- A. concluded the investigation with a finding not to proceed with disciplinary action or file charges, or
- B. concluded the investigation with a finding to proceed with disciplinary action and/or to file charges. If the investigation results in such a finding, the District shall also file a legally sufficient complaint regarding the misconduct as required by State law and Policy 8141 - Mandatory Reporting of Misconduct by Certificated Employees.

For the purpose of this subsection, a preliminary investigation shall be considered active as long as it is continuing with a reasonable, good faith anticipation that an administrative finding will be made in the foreseeable future. An investigation shall be presumed to be inactive, if no finding relating to probable cause is made within 60 days after the complaint is made. This subparagraph does not absolve the school district of its duty to provide any legally sufficient complaint to the department within 30 days after the date on which the subject matter of the complaint comes to the attention of the school district pursuant to s. 1012.796(1)(d)1., regardless of the status of the complaint.

-

Materials relating to work performance, discipline, suspension, or dismissal must be reduced to writing and signed by a person competent to know the facts or make the judgment.

The resignation or termination of an employee before an investigation of alleged misconduct by the employee affecting the health, safety, or welfare of a student is concluded must be clearly indicated in the employee's personnel file.

~~Regardless of the status of an investigation, any legally sufficient complaint will be filed in writing with Florida Department of Education (FLDOE) within thirty (30) days after the date on which the subject matter of the complaint comes to the attention of the District pursuant to F.S. 1012.796(1)(d)1. A complaint is legally sufficient if it contains ultimate facts that show a violation has occurred as provided in F.S. 1012.795 and defined by rule of the State Board of Education.~~

Any material that is derogatory to an employee shall not be open to inspection for an additional ten (10) days after the employee has been notified either:

- A. by certified mail, return receipt requested, to his/her address of record; or
- B. by personal delivery. The employee's signature on a copy of the materials to be filed shall be proof that such materials were given to the employee, with the understanding that such signature merely signifies receipt and does not necessarily indicate agreement with its contents.

No record in a personnel file which is confidential and exempt from inspection and copying pursuant to applicable law shall be disclosed except as provided by applicable law.

The Superintendent shall maintain a record in each personnel file of those persons reviewing the files each time they are reviewed.

A copy of each such entry shall be given to the employee upon request.

The employee shall have access to his/her file upon request.

Notwithstanding other provisions of this subsection, all aspects of the personnel file of each employee shall be made available to law enforcement personnel in the conduct of a lawful criminal investigation.

DISCIPLINARY CASE FILES: EMPLOYEES Item #98 This record series documents the investigation of allegations of employee misconduct and/or violation of department regulations or orders, state or federal statutes, or local ordinances. The series may include, but is not limited to, statements by the employee, witnesses, and the person filing the complaint. Cases include both formal and informal disciplinary proceedings relating to allegations that were determined as sustained, not sustained, unfounded, or exonerated. "Formal discipline" is defined as disciplinary action involving demotion, removal from office, suspension, or other similar action. "Informal discipline" is defined as any disciplinary action involving written and verbal reprimands, memoranda, or other similar action. These records are filed separately from the employee personnel file, but the final action summary becomes part of the personnel file. See also "EMPLOYEE CONDUCT COUNSELING RECORDS," "PERSONNEL RECORDS" items, and "STAFF ADMINISTRATION RECORDS." RETENTION: 5 anniversary years after final action.

The related procedures manual is entitled Personnel File Procedures.

7540.02 - **WEB CONTENT, SERVICES, AND APPS**

Creating Web Pages/Sites/Services and Apps

The School Board authorizes staff members and students to create web content, apps, and web services (see Bylaw 0100, Definitions) that will be hosted by the Board on its servers, or servers approved by the Superintendent, and published on the Internet.

The web content, services, and apps must reflect the professional image/brand of the District, its employees, and students. Web content, services, and apps must be consistent with the Board's mission statement and staff created web content, services, and apps are subject to prior review and approval of the Superintendent before being published on the Internet and/or utilized with students.

Student created web content, services, and apps are subject to Policy 5722 ("School Sponsored Student Publications and Productions").

The creation of web content, services, and apps by students must be done under the supervision of an instructional staff member.

The purpose of web content, services, and apps hosted by the Board on its servers, or servers approved by the Superintendent, is to educate, inform, and communicate. The following criteria shall be used to guide the development of such web content, services, and apps:

A. Educate

Content should be suitable for and usable by students and teachers to support the curriculum and the Board's objectives as listed in the Board's strategic plan.

B. Inform

Content may inform the community about the school, teachers, students, or departments, including information about curriculum, events, class projects, student activities, and departmental policies.

C. Communicate

Content may communicate information about the plans, policies, and operations of the Board to members of the public and other persons who may be affected by District matters.

The information contained on the Board's web site(s) should reflect and support the Board's mission statement, educational philosophy, and the school improvement process.

When the content includes a photograph or information relating to a student, the Board will abide by the provisions of Policy 8330—Student Records.

All links included on the Board's website(s) or web services and apps must also meet the above criteria and comply with State and Federal law (e.g. copyright laws, Children's Internet Protection Act, Section 504 of the Rehabilitation Act of 1973 (Section 504), Americans with Disabilities Act (ADA), and Children's Online Privacy Protection Act (COPPA)). Nothing in this paragraph

shall prevent the District from linking the Board's website(s) to 1) recognized news/media outlets (e.g., local newspapers' websites, local television stations' websites) or 2) to websites, services, and/or apps that are developed and hosted by outside commercial vendors pursuant to a contract with the Board. The Board recognizes that such third party websites may contain age appropriate advertisements that are consistent with the requirements of Policy 9700.01, AP 9700B, and State and Federal law.

Under no circumstances is District created web content, services, or apps to be used for commercial purposes, advertising, political lobbying, or to provide financial gains for any individual. Included in this prohibition is the fact no web content contained on the Board's web site may: (1) include statements or other items that support or oppose a candidate for public office; the investigation, prosecution, or recall of a public official; or passage of a tax levy or bond issue; (2) link to a web site of another organization if the other web site includes such a message; or (3) communicate information that supports or opposes any labor organization or any action by, on behalf of, or against any labor organization.

Under no circumstances is staff member created web content, services, or apps, including personal web pages/sites, to be used to post student progress reports, grades, class assignments, or any other similar class related material. Employees are required to use the Board specified student information system, gradebook, or learning management system for the purpose of conveying information to students and/or parents.

Staff members are prohibited from requiring students to go to the staff member's personal web pages/sites (including, but not limited to, their Facebook, Instagram, or Pinterest pages) to check grades, obtain class assignments and/or class related materials, and/or to turn in assignments.

If a staff member creates web content, services, or apps related to his/her class, it must be hosted on Board owned servers or servers approved by the Superintendent.

Unless the web content, service, or app contains student personally identifiable information, Board web sites, services, and apps that are created by students and/or staff members that are posted on the Internet should not be password protected or otherwise contain restricted access features, whereby only employees, student(s), or other limited groups of people can access the site. Community members, parents, employees, staff, students, and other web site users will generally be given full access to the Board's website(s), services, and apps.

Web content, services, and apps should reflect an understanding that both internal and external audiences will be viewing the information.

School website(s), services, and apps must be located on Board owned servers, or servers approved by the Superintendent.

The Superintendent shall prepare administrative procedures defining the rules and standards applicable to the use of the Board's web site and the creation of web content, services, and apps by staff and students.

The Board retains all proprietary rights related to the design of web content, services, and apps that are hosted on Board owned servers, or servers approved by the Superintendent, absent written agreement to the contrary.

Students who want their class work to be displayed on the Board's web site must have written parent permission and expressly license its display without cost to the Board.

Prior written parental permission is necessary for a student to be identified by name on the Board's web site.

Instructional Use of Web Services and Apps

The Board authorizes the use of web services and/or apps to supplement and enhance learning opportunities for students either in the classroom or for extended learning outside the classroom.

The Board requires the Director of Technology Services pre approve each web service and/or app that a teacher intends to use to supplement and enhance student learning. To be approved, the web service or app must have a Family Educational Rights and Privacy Act (FERPA) compliant privacy policy, as well as comply with all requirements of the Children's Online Privacy and Protection Act (COPPA), the Children's Internet Protect Act (CIPA), Section 504 of the Rehabilitation Act of 1973, and the Americans with Disability Act (ADA).

The Board further requires the use of a Board issued e-mail address in the login process.

A. Creation of Content for Web Pages/Sites, Apps and Services

The creation of content, apps, and services by students must be done under the supervision of a professional staff member.

B. Purpose of Content of District Web Pages/Sites, Apps, and Services

The purpose of content, apps, and services hosted by the Board on its servers or District-affiliated servers is to educate, inform, and communicate. The following criteria shall be used to guide the development of such content, apps, and services:

1. Educate

2. Inform

Content may inform the community about the school, teachers, students, or departments, including information about curriculum, events, class projects, student activities, and departmental policies.

3. Communicate

The information contained on the Board's website(s) should reflect and support the Board's mission statement, educational philosophy, and the school improvement process.

When the content includes a photograph or personally identifiable information relating to a student, the Board will abide by the provisions of Policy 8330 - Student Records.

Under no circumstances is District-created content, apps, and services to be used for commercial purposes, advertising, political lobbying or to provide financial gains for any individual. Included in this prohibition is the fact no content contained on the District's website may:

Employees are required to use the Board-specified website, app, or service (e.g., CANVAS, FOCUS) for the purpose of conveying information to students and/or parents.

Staff members are prohibited from requiring students to go to the staff member's personal web pages/sites (including, but not limited to, their Facebook, Instagram, Pinterest pages) to check grades, obtain class assignments and/or class-related materials, and/or to turn in assignments.

If a staff member creates content, apps, and services related to his/her class, it must be hosted on the Board's server or a District-affiliated server.

Unless the content, apps, and services contains student personally-identifiable information, Board websites, apps, and web services that are created by students and/or staff members that are posted on the Internet should not be password protected or otherwise contain restricted access features, whereby only employees, student(s), or other

limited groups of people can access the site. Community members, parents, employees, staff, students, and other website users will generally be given full access to the Board's website(s), apps, and services.

Web content, apps, and services should reflect an understanding that both internal and external audiences will be viewing the information.

School web pages/sites, apps, and services must be located on Board-owned or District-affiliated servers.

The Superintendent shall prepare administrative procedures defining the rules and standards applicable to the use of the Board's website and the creation of web content, apps, and services by staff **and students**.

The Board retains all proprietary rights related to the design of web content, apps and services that are hosted on Board-owned or District-affiliated servers, absent written agreement to the contrary.

Students who want their class work to be displayed on the Board's website must have written parent permission and expressly license its display without cost to the Board.

Prior written parent permission is necessary for a student to be identified by name on the Board's website.

C. Website Accessibility

The District is committed to providing persons with disabilities an opportunity equal to that of persons without disabilities to participate in the District's programs, benefits, and services, including those delivered through electronic and information technology, except where doing so would impose an undue burden or create a fundamental alteration. The District is further committed to ensuring persons with disabilities are able to acquire the same information, engage in the same interactions, and enjoy the same benefits and services within the same timeframe as persons without a disability, with substantially equivalent ease of use; that they are not excluded from participation in, denied the benefits of, or otherwise subjected to discrimination in any District programs, services, and activities delivered online, as required by Section 504 and Title II of the ADA and their implementing regulations; and that they receive effective communication of the District's programs, services, and activities delivered online.

The District adopts this policy to fulfill this commitment and affirm its intention to comply with the requirements of Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. 794, 34 C.F.R. Part 104, and Title II of the Americans With Disabilities Act of 1990, 42 U.S.C. 12131 and 28 C.F.R. Part 35 in all respects.

1. Technical Standards

The District will adhere to the technical standards of compliance identified at www.indianriverschools.org. The District measures the accessibility of online content and functionality according to the World Wide Web Consortium's Web Content Accessibility Guidelines ([WCAG](#)) [2.1 Level AA](#), and the Web Accessibility Initiative - Accessible Rich Internet Applications Suite ([WAI-ARIA 1.1](#)) for web content. The District will ensure all third-party content providers are aware of our technical standards and online content accessibility policy.

2. Web Accessibility Coordinator

The Board designates its Section 504/ADA Compliance Coordinator(s) as the District's web accessibility coordinator(s). That individual(s) is responsible for coordinating and implementing this policy.

See Board Policy 2260.01 for the Section 504/ADA Compliance Coordinator(s)' contact information.

3. Third Party Content

Links included on the Board's website(s), services, and apps that pertain to its programs, benefits, and/or services must also meet the above criteria and comply with State and Federal law (e.g. copyright laws, CIPA, Section 504, ADA, and COPPA). While the District strives to provide access through its website to online content provided or developed by third parties (including vendors, video-sharing websites, and other sources of online content) that is in an accessible format, that is not always

feasible. The District's administrators and staff, however, are aware of this requirement with respect to the selection of online content provided to students. The District's web accessibility coordinator or his/her designees will vet online content available on its website that is related to the District's programs, benefits, and/or services for compliance with this criteria for all new content placed on the District's website after adoption of this policy.

Nothing in the preceding paragraph, however, shall prevent the District from including links on the Board's website(s) to:

1. recognized news/media outlets (e.g., local newspapers' websites, local television stations' websites), or
2. websites, services, and/or apps that are developed and hosted by outside vendors or organizations that are not part of the District's program, benefits, or services.

The Board recognizes that such third party websites may not contain age-appropriate advertisements that are consistent with the requirements of Policy 9700.01, AP 9700B, and State and Federal law.

D. Regular Audits

The District, under the direction of the web accessibility coordinator(s) or his/her/their designees, will, at regular intervals, audit the District's online content and measure this content against the technical standards adopted above.

If problems are identified through the audit, such problems will be documented, evaluated, and, if necessary, remediated within a reasonable period of time.

E. Reporting Concerns or Possible Violations

If any student, prospective student, employee, guest, or visitor believes that the District has violated the technical standards in its online content, s/he may contact the web accessibility coordinator with any accessibility concerns. S/He may also file a formal complaint utilizing the procedures set out in Board Policy 2260 and Policy 2260.01 relating to Section 504 and Title II.

F. Instructional Use of Apps and Web Services

The Board authorizes the use of apps and services to supplement and enhance learning opportunities for students either in the classroom or for extended learning outside the classroom.

A teacher who elects to supplement and enhance student learning through the use of apps and/or services is responsible for verifying/certifying to their administrator that the app and/or service has a FERPA-compliant privacy policy, and it complies with all requirements of the Children's Online Privacy Protection Act (COPPA) and the Children's Internet Protection Act (CIPA).

G. Training

The District will provide periodic training for its employees who are responsible for creating or distributing information with online content so that these employees are aware of this policy and understand their roles and responsibilities with respect to web design, documents and multimedia content.

H. One-Way Communication Using District Web Content, Apps and Services

The District is authorized to use web pages/sites, apps and services to promote school activities and inform stakeholders and the general public about District news and operations.

Such communications constitute public records that will be archived.

When the Board or Superintendent designates communications distributed via District web pages/sites, apps and services to be one-way communication, public comments are not solicited or desired, and the web site, app or service is to be considered a nonpublic forum.

If the District uses an app and web service that does not allow the District to block or deactivate public

comments (e.g., Facebook, which does not allow comments to be turned-off, or Twitter, which does not permit users to disable private messages or mentions/replies), the District's use of that apps and web service will be subject to Policy 7544 – Use of Social Media, unless the District is able to automatically withhold all public comments.

If unsolicited public comments can be automatically withheld, the District will retain the comments in accordance with its adopted record retention schedule (see AP 8310A – Requests for Public Records), but it will not review or consider those comments.

7540.03 - **STUDENT TECHNOLOGY RESPONSIBLE USE AND SAFETY**

Technology has fundamentally altered the ways in which information is accessed, communicated, and transferred in society. As a result, educators are continually adapting their means and methods of instruction, and the way they approach student learning to incorporate the vast, diverse, and unique resources available through the Internet. The School Board provides technology resources (as defined in Bylaw 0100) to support the educational and professional needs of its students and staff. With respect to students, Board-owned technology resources afford them the opportunity to acquire the skills and knowledge to learn effectively and live productively in a digital world. The Board provides students with access to the Internet for limited educational purposes only and utilizes online educational services/apps to enhance the instruction delivered to its students. The Board's computer network and Internet system do not serve as a public access service or a public forum and the Board imposes reasonable restrictions on its use consistent with its limited educational purpose.

The Board regulates the use of Board-owned technology resources by principles consistent with applicable local, State, and Federal laws, the District's educational mission and articulated expectations of student conduct as delineated in the Code of Student Conduct. This policy and its related administrative procedures and the Code of Student Conduct govern students' use of Board-owned technology resources and students' personal communication devices when they are connected to the Board's computer network, Internet connection, and/or online educational services/apps or when used while the student is on Board-owned property or at a Board-sponsored activity (see Policy 5136).

Users are required to refrain from actions that are illegal (such as libel, slander, vandalism, harassment, theft, plagiarism, inappropriate access, and the like) or unkind (such as personal attacks, invasion of privacy, injurious comment, and the like). Because its technology resources are not unlimited, the Board has also instituted restrictions aimed at preserving these resources, such as placing limits on use of bandwidth, storage space, and printers.

Users have no right or expectation to privacy when using Board-owned technology resources (including, but not limited to, privacy in the content of their personal files, e-mails, and records of their online activity when using the Board's computer network and/or Internet connection).

First, the Board may not be able to technologically limit access, through its technology resources, to only those services and resources that have been authorized for the purpose of instruction, study, and research related to the curriculum. Unlike in the past when educators and community members had the opportunity to review and screen materials to assess their appropriateness for supporting and enriching the curriculum according to adopted procedures and reasonable selection criteria (taking into account the varied instructional needs, learning styles, abilities, and developmental levels of the students who would be exposed to them), access to the Internet, because it serves as a gateway to any publicly available file server in the world, opens classrooms and students to electronic information resources that may not have been screened by educators for use by students of various ages.

Pursuant to Federal law, the Board has implemented technology protection measures that protect against (e.g., filter or block) access to visual displays/depictions/materials that are obscene, constitute child pornography, and/or are harmful to minors, as defined by the Children's Internet Protection Act (CIPA). At the discretion of the Board or the Superintendent, the technology

protection measures may be configured to protect against access to other material considered inappropriate for students to access. The Board also utilizes software and/or hardware to monitor online activity of students to restrict access to child pornography and other material that is obscene, objectionable, inappropriate, and/or harmful to minors. The technology protection measures may not be disabled at any time that students may be using Board-owned technology resources, if such disabling will cease to protect against access to materials that are prohibited under the CIPA. Any student who attempts to disable the technology protection measures will be subject to discipline.

The Superintendent or the Assistant Superintendent for [Human Resources & School Administration](#) ~~Technology and Assessment~~ may temporarily or permanently unblock access to websites or online educational services/apps containing appropriate material, if access to such sites has been inappropriately blocked by the technology protection measures. The determination of whether material is appropriate or inappropriate shall be based on the content of the material and the intended use of the material, not on the protection actions of the technology protection measures.

Parents are advised that a determined user may be able to gain access to services and/or resources on the Internet that the Board has not authorized for educational purposes. In fact, it is impossible to guarantee students will not gain access through the Internet to information and communications that they and/or their parents may find inappropriate, offensive, objectionable, or controversial. Parents of minors are responsible for setting and conveying the standards that their children should follow when using the Internet.

Pursuant to Federal law, students shall receive education about the following:

- A. safety and security while using e-mail, chat rooms, social media, and other forms of direct electronic communications;
- B. the dangers inherent with the online disclosure of personally identifiable information;
- C. the consequences of unauthorized access (e.g., "hacking", "harvesting", "digital piracy", "data mining", etc.), cyberbullying, and other unlawful or inappropriate activities by students online; and,
- D. un-authorized disclosure, use, and dissemination of personally identifiable information regarding minors.

Staff members shall provide instruction for their students regarding the appropriate use of technology and online safety and security as specified above. Furthermore, staff members will monitor the online activities of students while at school.

Monitoring may include, but is not necessarily limited to, visual observations of online activities during class sessions; or use of specific monitoring tools to review browser history and network, server, and computer logs.

Building principals are responsible for providing training so that Internet users under their supervision are knowledgeable about this policy and its accompanying procedures. The Board expects that staff members will provide guidance and instruction to students in the appropriate use of Board-owned technology resources. Such training shall include, but not be limited to, education concerning appropriate online behavior, including interacting with other individuals on social media, including in chat rooms, and cyberbullying awareness and response. All users of Board-owned technology resources (and their parents if they are minors) are required to sign a written agreement to abide by the terms and conditions of this policy and its accompanying procedures.

Students will be assigned a school e-mail account that they are required to utilize for all school-related electronic communications, including those to staff members, peers, and individuals and/or organizations outside the District, with whom they are communicating for school-related projects and assignments. Further, as directed and authorized by their teachers, they shall use their school-assigned e-mail account when signing-up/registering for access to various online educational services, including mobile applications/apps that will be utilized by the student for educational purposes.

Students are responsible for good behavior when using Board-owned technology resources - i.e., behavior comparable to that expected of students when they are in classrooms, school hallways, and other school premises and school sponsored events. Communications on the Internet are often public in nature. General school rules for behavior and communication apply. The Board does not approve any use of its technology resources that is not authorized by or conducted strictly in compliance with this policy and its accompanying procedures.

Students may only use Board-owned technology resources to access or use social media if it is done for educational purposes in accordance with their teacher's approved plan for such use.

Users who disregard this policy and its accompanying procedures may have their use privileges suspended or revoked, and disciplinary action taken against them. Users are personally responsible and liable, both civilly and criminally, for uses of Board-owned technology resources that are not authorized by this policy and its accompanying procedures.

The Board designates the Superintendent and the Assistant Superintendent for [Human Resources](#) ~~Technology and~~ [School Administration](#) ~~Assessment~~ as the administrators responsible for initiating, implementing, and enforcing this policy and its

accompanying procedures as they apply to students' use of Board-owned technology resources.

Unless a specific policy has been amended and the date the policy was revised is noted at the bottom of that policy, the bylaws and policies of The School Board of Indian River County were adopted on August 13, 2013.

7540.04 - STAFF TECHNOLOGY RESPONSIBLE USE AND SAFETY

Technology has fundamentally altered the ways in which information is accessed, communicated, and transferred in society. As a result, educators are continually adapting their means and methods of instruction, and the way they approach student learning, to incorporate the vast, diverse, and unique resources available through the Internet. The School Board provides technology and information resources (as defined by Bylaw 0100) to support the educational and professional needs of its staff and students. The Board provides staff with access to the Internet for limited educational purposes only and utilizes online educational services/apps to enhance the instruction delivered to its students and to facilitate the staff's work. The Board's computer network and Internet system do not serve as a public access service or a public forum and the Board imposes reasonable restrictions on its use consistent with its limited educational purpose.

The Board regulates the use of Board-owned technology and information resources by principles consistent with applicable local, State, and Federal laws and the District's educational mission. This policy and its related administrative procedures, [Policy 7544 and AP 7544](#), and any applicable employment contracts and collective bargaining agreements govern the staff's use of the Board-owned technology and information resources and staff's wireless communication devices when they are connected to the Board's computer network, Internet connection, and/or online educational services/apps, or when used while the staff member is on Board-owned property or at a Board-sponsored activity (see Policy 7530.02).

Users are required to refrain from actions that are illegal (such as libel, slander, vandalism, harassment, theft, plagiarism, inappropriate access, and the like) or unkind (such as personal attacks, invasion of privacy, injurious comment, and the like). Because its technology resources are not unlimited, the Board has also instituted restrictions aimed at preserving these resources, such as placing limits on use of bandwidth, storage space, and printers.

Users have no right or expectation to privacy when using Board-owned technology and information resources (including, but not limited to, privacy in the content of their personal files, e-mails, and records of their online activity when using the Board's computer network and/or Internet connection).

Staff members are expected to utilize Board-owned technology and information resources to promote educational excellence in our schools by providing students with the opportunity to develop the resource sharing, innovation, and communication skills and tools that are essential to both life and work. The Board encourages the faculty to develop the appropriate skills necessary to effectively access, analyze, evaluate, and utilize these resources in enriching educational activities. The instructional use of the Internet and online educational services will be guided by Board Policy 2520 - Selection of and Adoption of Instructional Materials.

The Internet is a global information and communication network that brings incredible education and information resources to our students. The Internet connects computers and users in the District with computers and users worldwide. Through the Internet, students and staff can access relevant information that will enhance their learning

and the education process. Further, Board-owned technology resources provide students and staff with the opportunity to communicate with other people from throughout the world. Access to such an incredible quantity of information and resources brings with it certain unique challenges and responsibilities.

~~First, T~~he Board may not be able to technologically limit access, through its technology resources, to only those services and resources that have been authorized for the purpose of instruction, study and research related to the curriculum. Unlike in the past when educators and community members had the opportunity to review and screen materials to assess their appropriateness for supporting and enriching the curriculum according to adopted guidelines and reasonable selection criteria (taking into account the varied instructional needs, learning styles, abilities, and developmental levels of the students who would be exposed to them), access to the Internet, because it serves as a gateway to any publicly available file server in the world, opens classrooms and students to electronic information resources that may not have been screened by educators for use by students of various ages.

Pursuant to Federal law, the Board has implemented technology protection measures that protect against (e.g., filter or block) access to visual displays/depictions/materials that are obscene, constitute child pornography, and/or are harmful to minors, as defined by the Children's Internet Protection Act (CIPA). At the discretion of the Board or Superintendent, the technology protection measures may also be configured to protect against access to other material considered inappropriate for students to access. The Board also utilizes software and/or hardware to monitor online activity of staff members to restrict access to child pornography and other material that is obscene, objectionable, inappropriate, and/or harmful to minors. The technology protection measures may not be disabled at any time that students may be using Board-owned technology resources, if such disabling will cease to protect against access to materials that are prohibited under the CIPA. Any staff member who attempts to disable the technology protection measures without express written consent of an appropriate administrator will be subject to disciplinary action, up to and including termination.

The Superintendent or the Assistant Superintendent for Human Resources & School Administration ~~Technology and Assessment~~ may temporarily or permanently unblock access to websites or online educational services/apps containing appropriate material, if access to such sites has been inappropriately blocked by the technology protection measures. The determination of whether material is appropriate or inappropriate shall be based on the content of the material and the intended use of the material, not on the protection actions of the technology protection measures. The Superintendent or the Assistant Superintendent for Human Resources & School Administration ~~Technology and Assessment~~ may also disable the technology protection measures to enable access for bona fide research or other lawful purposes.

Staff members will participate in professional development programs in accordance with the provisions of law and this policy. Training shall include:

- A. the safety and security of students while using e-mail, chat rooms, social media, and other forms of direct electronic communications;
- B. the inherent danger of students disclosing personally identifiable information online;
- C. the consequences of unauthorized access (e.g., "hacking", "harvesting", "digital piracy", "data mining", etc.), cyberbullying, and other unlawful or inappropriate activities by students or staff online; and
- D. un-authorized disclosure, use, and dissemination of personally identifiable information regarding minors.

Furthermore, staff members shall provide instruction for their students regarding the appropriate use of technology and online safety and security as specified above, and staff members will monitor students' online activities while at school.

Monitoring may include, but is not necessarily limited to, visual observations of online activities during class sessions or use of specific monitoring tools to review browser history and network, server, and computer logs.

The disclosure of personally identifiable information about students online is prohibited.

Building principals are responsible for providing training so that Internet users under their supervision are knowledgeable about this policy and its accompanying procedures. The Board expects that staff members will provide guidance and instruction to students in the appropriate use of Board-owned technology resources. Such training shall include, but not be limited to, education concerning appropriate online behavior, including interacting with other individuals on social media, including in chat rooms and cyberbullying awareness and response. All users of Board-owned technology resources are required to sign a written agreement to abide by the terms and conditions of this policy and its accompanying procedures.

Staff will be assigned a school email address that they are required to utilize for all school-related electronic communications, including those to students, parents, and other constituents, fellow and other staff members, and vendors or individuals seeking to do business with the District.

With prior approval from the Superintendent or site administrator, staff may direct students who have been issued school-assigned email accounts to use those accounts when signing-up/registering for access to various online educational services, including mobile applications/apps that will be utilized by the students for educational purposes under the teacher's supervision.

Staff members are responsible for good behavior when using Board-owned technology and information resources - i.e., behavior comparable to that expected when they are in classrooms, school hallways, and other school premises and school sponsored events. Communications on the Internet are often public in nature. The Board does not approve any use of its technology and information resources that is not authorized by or conducted strictly in compliance with this policy and its accompanying procedures and Policy 7544 and its accompanying procedure.

Staff members use of District technology resources to access or use social media is to be consistent with Policy 7544 and its accompanying procedure.

~~Staff members may only use Board-owned technology resources to access or use social media if it is done for educational or business-related purposes.~~

An employee's personal or private use of social media may have unintended consequences. While the Board respects its employees' First Amendment rights, those rights do not include permission to post inflammatory comments that could compromise the District's mission, undermine staff relationships, or cause a substantial disruption to the school environment. This warning includes staff members' online conduct that occurs off school property including from the employee's private computer. Postings to social media should be done in a manner sensitive to the staff member's professional responsibilities.

General school rules for behavior and communication apply.

Users who disregard this policy and its accompanying procedures may have their use privileges suspended or revoked and disciplinary action taken against them. Users are personally responsible and liable, both civilly and criminally, for uses of Board-owned technology and information resources that are not authorized by this policy and its accompanying guidelines.

The Board designates the Superintendent and Assistant Superintendent ~~of~~ for Human Resources & School Administration Technology and Assessment as the administrators responsible for initiating, implementing, and enforcing this policy and its accompanying procedures as they apply to staff members' use of Board-owned technology and information resources.

Social Media Use

~~An employee's personal or private use of social media may have unintended consequences. While the Board respects its employees' First Amendment rights, those rights do not include permission to engage in conduct that violates Board policies, the Code of Ethics of the Education Profession in Florida, the Principles of Professional Conduct for the Education Profession in Florida, or any other state or Federal laws, and may result in disciplinary action. This warning includes staff members' online conduct that occurs off school property including from the employee's private computer. Postings to social media should be done in a manner sensitive to the staff member's professional responsibilities.~~

In addition, Federal and State confidentiality laws forbid schools and their employees from using or disclosing student education records without parental consent (see Policy 8330). Education records include a wide variety of information; posting personally identifiable information about students is not permitted. Staff members who violate State and Federal confidentiality laws or privacy laws related to the disclosure of confidential student or employee information may be disciplined.

Staff members retain rights of communication for collective bargaining purposes and union organizational activities.

7540 - **TECHNOLOGY**

The School Board is committed to the effective use of technology to both enhance the quality of student learning and the efficiency of District operations.

Although students' use of Board-owned technology resources (see definition in Bylaw 0100) is required to participate in and benefit from certain aspects of the District's curriculum and to participate in online assessment, unsupervised use of technology resources may be limited or denied if such use is not under the direct supervision of school staff if a student's use of District technology resources is in violation of the District's policy regarding acceptable use. Students and their parents must sign and submit a Student Technology Responsible Use and Safety form annually. (See also, Policy 7540.03)

The Superintendent shall develop, recommend for approval by the Board, and implement a written District Technology Plan (DTP). One of the primary purposes of the DTP is to evaluate new and emerging technologies and how they will play a role in student achievement and success and/or efficient and effective District operations. The Board will financially support, as the budget permits, the DTP, including recommendations to provide new and developing technology for students and staff.

The DTP shall set forth procedures for the proper acquisition of technology. The DTP shall also provide guidance to staff and students about making safe, appropriate, and ethical use of Board approved technology resources, as well as inform both staff and students about disciplinary actions that will be taken if its technology resources are abused in any way or used in an inappropriate, illegal, or unethical manner. (See Policy 7540.03 and AP 7540.03 - Student Technology Responsible Use and Safety, and Policy 7540.04 and AP 7540.04 - Staff Technology Responsible Use and Safety)

The Superintendent shall review the DTP and report any changes, amendments, or revisions to the Board annually.

This policy, along with the Student and Staff Technology Responsible Use and Safety policies, and the Code of Student Conduct further govern students' and staff members' use of their wireless communication devices (see Policy 5136 and Policy 7530.02). Users have no right or expectation of privacy when using Board-owned technology resources (including, but not limited to, privacy in the content of their personal files, e-mails, and records of their online activity when using the Board's computer network and/or Internet connection).

Further, safeguards shall be established so that the Board's investment in both hardware and software achieves the benefits of technology and inhibits negative side effects. Accordingly, students shall be educated about appropriate online behavior including, but not limited to, using social media to interact with others online; interacting with other individuals in chat rooms or on blogs; and, recognizing what constitutes cyberbullying, understanding cyberbullying is a violation of Board policy, and learning appropriate responses if they experience cyberbullying.

~~For purposes of this policy, social media is defined as Internet-based applications that facilitate communication (e.g., interactive/two-way conversation/dialogue) and networking between individuals or groups. Social media is "essentially a category of online media where people are talking, participating, sharing, networking, and bookmarking online. Most social media services encourage discussion, feedback, voting, comments, and sharing of information from all interested parties" (Quote~~

~~from Ron Jones of Search Engine Watch). Social media provides a way for people to stay "connected or linked to other sites, resources, and people". Examples include FaceBook, Twitter, Instagram, webmail, text messaging, chat, blogs, and instant messaging (IM). Social media does not include sending or receiving e-mail through the use of Board issued e-mail accounts.~~

~~Staff may use social media for business related purposes. Authorized staff may use Board owned technology resources to access and use social media to increase awareness of District programs and activities, as well as to promote achievements of staff and students, provided the Superintendent approves, in advance, such access and use. Use of social media for business-related purposes is subject to Florida's public records laws and staff members are responsible for archiving their social media and complying with the District's record retention schedule. (See Policy 8310 - Public Records, AP 8310A - Public Records, and AP 8310D - Records Retention and Disposal)~~

~~Instructional staff and their students may use Board owned technology resources to access and use social media for educational purposes, provided the Principal approves, in advance, such access and use.~~

~~Students must comply with Policy 7540.03, 7540.04, 7544, and Policy 5136 when using Board approved technology resources to access and/or use social media. Similarly, staff must comply with Policy 7540.04 and Policy 7530.02 when using Board owned technology resources to access and/or use social media~~

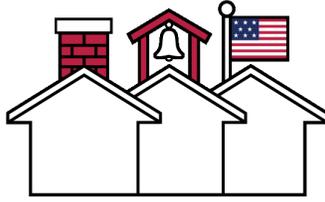

Staff must comply with Policy 7544, 7540.04, and Policy 7530.02 when using District technology resources to access and/or use District-approved social media platforms/sites.

NEW POLICY - SPECIAL UPDATE - MARCH 2018 - SOCIAL MEDIA

7544 - USE OF SOCIAL MEDIA

Technology is a powerful tool to enhance education, communication, and learning.

The School Board authorizes the use of social media to promote community involvement and facilitate effective communication with students, parents/guardians, staff, and the general public. Social media is defined in Bylaw 0100.

The Superintendent is charged with designating the District-approved social media platforms/sites, which shall be listed on the District's website.

In designating District-approved social media platforms/sites, the Superintendent shall specify which platforms/sites are appropriate for use at the District-level, the building or department level, for extra-curricular activities, and at the individual level by employees for professional purposes.

It is critical that students be taught how to use social media platforms safely and responsibly. Social media (as defined in Bylaw 0100) are a powerful and pervasive technology that affords students and employees the opportunity to communicate for school and work purposes, and to collaborate in the delivery of a comprehensive education. Federal law mandates that the District provide for the education of students regarding appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms, and regarding cyberbullying awareness and response. See School Board Policy 7540.03 – Student Technology Acceptable Use and Safety.

The District recognizes that employees may use social media for personal, as well as professional reasons. The District neither encourages nor discourages employees' use of social media for personal purposes. The District regulates employees' use of social media for purposes related to their District assignment to the same extent as it regulates any other form of employee communication in that regard.

The District uses approved social media platforms/sites as interactive forms of communication.

Each District-approved social media account/site must contain a statement that specifies its purpose(s) and limits those who access the social media account/site to use of the account/site only for that/those purpose(s), and in accordance with any specified procedures and applicable terms of service. Users are personally responsible for the content of their posts.

Social Media for Instructional and School-Sponsored Activities

Staff may, with prior approval/authorization from the Principal, use social media platforms/sites for classroom instruction or school-sponsored activities. When a staff member uses a District-approved social media platform/site for an educational purpose, it will be considered an educational activity and will not be considered a limited public forum. Students' use of District-approved social media platforms/sites must be consistent with the Student Code of Conduct, Policy 5722 – School-Sponsored Student Publications and Productions/AP 5722 - School Publications/Productions, Policy 7540.03/AP 7540.03 – Student Technology Acceptable Use and Safety, the instructor's directions/procedures, and the platform/site's applicable terms of service. Students are prohibited from posting or releasing personally identifiable information about students, employees and volunteers through District-approved social media, without appropriate consent.

Staff members must obtain parental consent for students to participate in the use of social media platforms/sites related to a school-sponsored activity. If a parent refuses to provide such consent, the staff member must arrange for an alternative method of communicating with the participating student concerning the school-sponsored activity.

Expected Standards of Conduct on District-Approved Social Media Accounts and Sites

Employees who access District-approved social media platforms are expected to conduct themselves in a respectful, courteous, and professional manner. Students, parents, and members of the general public who access District-approved social media platforms are similarly expected to conduct themselves in a respectful, courteous, and civil manner.

District-approved social media accounts/sites shall not contain content that is obscene; is vulgar and lewd such that it undermines the school's basic educational mission; is libelous or defamatory; constitutes hate speech; promotes illegal drug use; is aimed at inciting an individual to engage in unlawful acts or to cause a substantial disruption or material interference with District operations; or interferes with the rights of others. The District may exercise editorial control over the style and content of speech on District-approved social media accounts/sites, if reasonably related to legitimate pedagogical concerns. Staff or students who post prohibited content shall be subject to appropriate disciplinary action.

The District is committed to protecting the privacy rights of students, parents/guardians, staff, volunteers, Board members, and other individuals on District-approved social media accounts/sites. District employees and volunteers are prohibited from posting or releasing confidential information about students, employees, volunteers, or District operations through District-approved social media accounts/sites, without appropriate consent (i.e., express written consent from the parent of a student, the affected employee or volunteer, or the Superintendent concerning District operations).

Retention of Public/Student Records

District communications that occur through the use of District-approved social media platforms/sites – including staff members' use of social media with school-sponsored activities, and comments, replies, and messages received from the general public – may constitute public records or student records, and all such communications will be maintained (i.e., electronically archived) in accordance with the Board's adopted record retention schedule and all applicable State statutes. (See AP 8310A – Requests for Public Records).

Staff members cannot rely on social networking platforms (e.g., Facebook, Twitter, etc.) to sufficiently fulfill potential records retention requirements because these platforms, in general, do not guarantee retention and are unlikely to assist in the production of third-party comments and communications that have been edited, deleted, or are otherwise no longer available. Consequently, District employees who use such social media accounts for professional communications must operate them in accordance with the general archiving practices and technology instituted by the District so records remain within the District's control and are appropriately retained.

If a staff member uses District-approved social media platforms/sites in the classroom for educational purposes (i.e., classroom instruction), the staff member must consult with the Principal concerning whether such use may result in the creation of public and/or education records that must be maintained (i.e., electronically archived) for a specific period of time.

Employees' Use of District Technology Resources to Access Social Media for Personal Use

Employees are permitted to use District technology resources (as defined in Bylaw 0100) to access social media for personal use, provided the employee's use during work hours does not interfere with his/her job performance.

They are reminded that the District may monitor their use of District technology resource.

Employees' Use of Personal Communication Devices at Work to Access Social Media for Personal Use

Employees are permitted to use personal communication devices to access social media for personal use during work hours, provided it does not interfere with the employee's job performance.

Employees and District-approved volunteers are prohibited from posting or engaging in communication that violates State or Federal law, Board policies, or administrative procedures. If an employee/volunteer's communication interferes with his/her ability to effectively perform his/her job, or violates State or Federal law, Board policies, or administrative procedures, the District may impose disciplinary action and/or refer the matter to appropriate law enforcement authorities.

This policy and its corresponding administrative procedure will be reviewed and updated as necessary.

8330 - **STUDENT RECORDS**

In order to provide appropriate educational services and programming, the School Board must collect, retain, and use information about individual students. Simultaneously, the Board recognizes the need to safeguard students' privacy and restrict access to students' personally identifiable information.

Maintenance of Student Records

The Board is responsible for the records of all students who attend or have attended schools in this District. Only records mandated by the State or Federal government and necessary and relevant to the function of the School District or specifically permitted by this Board shall be compiled by District employees.

Category A and B records shall be maintained in compliance with the approved District records retention schedule.

Individual exceptional student records shall be kept separate from regular cumulative records. These records shall be sent to each succeeding school the student attends in the District and shall be maintained in accordance with the approved District records retention plan.

Periodic review for elimination of outdated information in student records by the custodian or designees shall be made in accordance with F.S. 1001.52, and the approved District records retention plan. The custodian of the student records shall be responsible for maintaining the accuracy of information by purging student records in accordance with the General Records Schedule for Public Schools (GS-7). Explanations placed in the education record and the record of access shall be maintained for as long as the education record to which it pertains is maintained. This procedure must be implemented before records are released to any vocational-technical centers, community colleges, or institutions of higher learning in which the student seeks or intends to enroll.

Limitations on Collection and Retention of Certain Information

The District shall not collect, obtain, or retain information on the political affiliation, voting history, religious affiliation, or biometric information of a student or a parent or sibling of a student. For purposes of this paragraph, the term "biometric information" means information collected from the electronic measurement or evaluation of any physical or behavioral characteristics that are attributable to a single person, including fingerprint characteristics, hand characteristics, eye characteristics, vocal characteristics, and any other physical characteristics used for the purpose of electronically identifying that person with a high degree of certainty. Examples of biometric information include, but are not limited to, a fingerprint or hand scan, a retina or iris scan, a voice print, or a facial geometry scan.

The District shall not maintain any report or record relative to a student that includes a copy of a student's fingerprints.

The Superintendent or designee will be responsible for the privacy and security of records that are not under the supervision of the school principal.

Notwithstanding the provisions of this paragraph, if the District used a palm scanner system for identifying students for breakfast and lunch programs on March 1, 2014, it may continue to use the palm scanner system through the 2014-2015 school year.

Access to Student Records

The rights of students and their parents with respect to education records created, maintained, or used by the District must be protected in accordance with FERPA, State law, and the implementing regulations and rules issued pursuant thereto. Students and their parents have the right to access their education records, including the right to inspect and review those records, have the right to waive their access to their education records in certain circumstances, have the right to challenge the content of education records, have the right of privacy with respect to such records and reports, and receive annual notice of their rights with respect to education records.

In addition to students and their parents and eligible students, student records shall be available only to designated school officials and personnel, to such other persons as the parent or eligible student authorizes in writing, a court of competent jurisdiction or to other individuals or organizations as permitted by law. The term "parents" includes legal guardians or other persons standing in loco parentis (such as a grandparent or stepparent with whom the child lives, or a person who is legally responsible for the welfare of the child). The term "eligible student" refers to students who are eighteen (18) years of age or older, or who are enrolled in a postsecondary institution, regardless of age.

Schools may, without consent of parents, guardians, or eligible students, provide access to school officials to perform an administrative, supervisory, or instructional task, or to perform a service or benefit for the student or the student's family, and psychologists within the School District providing they have a legitimate educational interest. Support employees may be designated by the principal for the purpose of doing clerical work and maintaining student records. However, such persons shall receive in-service training concerning the confidentiality of student records and work under the supervision and control of an administrative staff member.

Whenever a student has attained eighteen (18) years of age, the permission and consent required of and rights accorded to the parents of the student as to student records maintained by the District, shall thereafter be required of and accorded to the eligible student only, unless the eligible student is a dependent of his/her parents as defined in Title 26 U.S.C. Section 152 of the Internal Revenue Code of 1954. The School District may, in this instance, disclose personally identifiable information from the education records to the parents without the prior consent of the eligible student.

Whenever a student has enrolled in a postsecondary institution, regardless of age, the permission and consent required of and rights accorded to the parents of the student as to student records maintained by the postsecondary institution shall thereafter be required of and accorded to the eligible student only. However, if the student is not eighteen (18) years of age, then the permission and consent required of and rights as to the student records maintained by the District shall be retained by the parents.

The custodian of the student record shall permit the eligible student or the parents or guardians of the student who is or has been in attendance in the School District to inspect and review the education records of the eligible student or student. Provisions for such inspection and review shall be made within a reasonable period of time of the request, but in no case shall be more than thirty (30) days after the request has been made.

The District presumes that the eligible student or either parent of the student has the right to inspect, review, and receive copies of the education records of the student or eligible student unless the Board, its staff, or the individual school has been provided a legally binding instrument or court order governing such matters as divorce, separation, or custody which provides to the contrary.

In instances where records are opened to parents, guardians, or eligible students, schools shall make available a member of the professional staff to interpret the record and shall provide copies, upon request and payment of the current District copy rate, which shall not exceed the maximum rate for copies of public records as set forth in F.S. Chapter 119.

The copy rate will include actual reproduction costs and will not include the labor costs for retrieval.

School officials shall provide requesting parents, guardians, or eligible students an opportunity for a hearing to challenge the content of their child's or the eligible student's school records, to insure that the records are not inaccurate, misleading, or otherwise in violation of the privacy or other rights of students, and to provide an opportunity for the correction or deletion of any such inaccurate, misleading, or otherwise inappropriate data contained therein.

Parents, guardians, and eligible students may waive their right of access to confidential letters or statements of recommendations or evaluation. Such waiver shall be made in writing to the custodian of the records and shall be signed by the parent, guardian, or eligible student. Such waiver shall apply to recommendations or evaluation only if:

- A. the parent, guardian, or eligible student is, upon request, notified of the names of all persons submitting confidential letters or statements; and
- B. such recommendations or evaluations are used solely for the purpose for which they were specifically intended.

The waiver of right of access may be revoked in writing with respect to actions occurring after the revocation.

Court Request of Records

- A. Student records may be disclosed to a court of competent jurisdiction provided that reasonable notification is given in advance to the parents and student. If the principal or his/her designee is unable to notify prior to time for compliance set forth in the court order, s/he shall bring to the court's attention the provision of the Family Educational Rights and Privacy Act of 1974 and comply with the court's instruction.
- B. Student records may be disclosed pursuant to a lawfully issued subpoena, upon the condition that the student, or his/her parent if the student is either a minor and not attending an institution of postsecondary education or a dependent of such parent as defined in 26 U.S.C. 152 (s. 152 of the Internal Revenue Code of 1954), is notified of the order or subpoena in advance of compliance therewith by the educational institution or agency.

The Superintendent may, in writing, authorize access to student records to representatives of the Federal, State, or local educational authorities.

Transcripts of a student's records may be released without written consent from the students' parents, guardians, or eligible student, to any vocational-technical center, community college, or any postsecondary institutions of higher learning in which the student seeks or intends to enroll. A copy of the records may be released to the student's parents, guardians, or eligible student upon request. This policy is also applicable in instances where such a request is in connection with a student's application for, or receipt of, financial aid.

Hearing Procedure to Correct Student Records

Whenever a parent, guardian, or eligible student believes the content of the student record is inaccurate, misleading, or in violation of their privacy, they may request in writing an informal meeting with the custodian of the record for the purpose of requesting the correction, deletion, or expunction of any inaccurate, misleading, or otherwise inappropriate data or material contained in the student record.

If the parties at the informal meeting agree to make deletions, to expunge material, or to add a statement of explanation or rebuttal to the file, such agreement shall be reduced to writing and signed by the parties, and the appropriate school officials shall take the necessary actions to implement the agreement. If agreement is not reached, denial of the request and notification of the right to a formal hearing shall be made in writing to the parent, guardian, or eligible student with a copy to the Superintendent or designee.

Upon the request of a parent, guardian, or eligible student, a formal hearing shall be held. Such hearing shall be requested, in writing, within ten (10) days of the written notice of denial at the informal meeting, to the Superintendent or designee, who shall appoint a hearing officer who shall be any official of the school system with no direct interest in the outcome of the hearing. The hearing officer shall convene and conduct the hearing and shall render a decision in writing to all concerned parties within ten (10) days of the conclusion of the hearing. Such hearing shall be held within a reasonable period of time but in no case shall be held more than thirty (30) days from the date of the written request.

The parents, guardian, eligible student, and officials of the school shall be afforded a full and fair opportunity to present evidence relevant to the issues raised. The hearing shall be recorded and available to all parties. However, the record of such hearings are exempt from disclosure under F.S. Chapter 119.

If the decision of the hearing officer is that the records are not inaccurate, misleading, or otherwise in violation of privacy rights, the parent, guardian, or eligible student shall be allowed to comment in writing on the information in the education record and set forth any reasons for disagreeing with the decision. This written response shall be filed in the education records of the student.

Disclosure of Student Record Information

Notwithstanding any other provision in this policy, student education records shall not be disclosed to any person, public body, body politic, political subdivision, or agency of the Federal government except when authorized by State or Federal law or in response to a lawfully issued subpoena or court order. In accordance with State law, student education records are exempt from the provisions of F.S. Chapter 119.

A. Prior Written Consent

1. Prior written consent of the parent, guardian, or eligible student shall be obtained prior to disclosing personally identifiable student information other than directory information. The written consent shall include: signature of the parent, guardian, or eligible student; date; specification of records or information to be disclosed; purpose of the disclosure; and the party or class of parties to whom a disclosure is to be made.
2. Disclosures of personally identifiable student information will be made only on the condition that the party or parties to whom the information is disclosed shall not disclose the information to any other party without prior written consent of the parent, guardian, or eligible student, as appropriate. Personally identifiable student information which is disclosed to an institution, agency, or organization may be used by its officers, employees, and agents, but only for the purpose for which the disclosure was made. The District presumes the parent, guardian, or eligible student has the authority to grant permission for disclosure of personally identifiable student information unless the District has been provided with evidence that there is a legally binding instrument or State law or court order governing such matters as divorce, separation, or custody which provides to the contrary.

B. Without Prior Written Consent

Personally identifiable information or records of a student may be released to the following persons or organizations without the prior written consent of the student or the student's parent or guardian:

1. Officials of schools, school systems, career centers, or public postsecondary educational institutions in which the student seeks or intends to enroll; and a copy of such records or reports shall be furnished to the parent or student upon request.
2. Other school officials, including teachers within the educational institution or agency, who have a legitimate educational interest in the information contained in the records.
3. The United States Secretary of Education, the Director of the National Institute of Education, the Assistant Secretary for Education, the Comptroller General of the United States, or State or local educational authorities who are authorized to receive such information subject to the conditions set forth in applicable Federal statutes and regulations of the United States Department of Education, or in applicable State statutes and rules of the State Board of Education.

The disclosed records must be used to audit or evaluate a Federal or State supported education program, or to enforce or comply with Federal requirements related to those education programs. A written agreement between the parties is required under this exception.

This written agreement must include:

- a. designation of the receiving individual or entity as an authorized representative;
- b. specification of the information to be disclosed;
- c. specification that the purpose of the disclosure is to carry out an audit or evaluation of a government-supported educational program or to enforce or comply with the program's legal requirements;
- d. a summary of the activity that includes a description of methodology and an explanation of why personally identifiable information is necessary to accomplish the activity;

- e. a statement requiring the organization to destroy all personally identifiable information when it is no longer needed to carry out the audit or evaluation, along with a specific time period in which the information must be destroyed; and
- f. a statement of policies and procedures that will protect personally identifiable information from further disclosure or unauthorized use.

Under the audit exception, the District will use "reasonable methods" to verify that the authorized representative complies with FERPA regulations. Specifically, the District will verify, to the greatest extent practical, that the personally identifiable information is used only for the audit, evaluation, or enforcement of a government-supported educational program. The District will also ascertain the legitimacy of the audit or evaluation and will only disclose the specific records that the authorized representative needs. Further, the District will require the authorized representative to use the records only for the specified purpose and not to disclose the information any further, such as for another audit or evaluation. Finally, the District will verify that the information is destroyed when no longer needed for the audit, evaluation, or compliance activity.

- 4. Appropriate parties in connection with a student's application for or receipt of financial aid, if necessary to determine the eligibility for the aid; determine the amount of the aid; determine the conditions of the aid; and/or enforce the terms and conditions of the aid.
- 5. Individuals or organizations conducting studies for or on behalf of an institution or a board of education for the purpose of developing, validating, or administering predictive tests, administering student aid programs, or improving instruction, if the studies are conducted in a manner that does not permit the personal identification of students and their parents by persons other than representatives of such organizations and if the information will be destroyed when no longer needed for the purpose of conducting such studies.

In order to release information under this provision, the District will enter into a written agreement with the recipient organization that specifies the purpose of the study.

This written agreement must include: (1) specification of the purpose, scope, duration of the study, and the information to be disclosed; (2) a statement requiring the organization to use the personally identifiable information only to meet the purpose of the study; (3) a statement requiring the organization to prohibit personal identification of parents and students by anyone other than a representative of the organization with legitimate interests; and (4) a requirement that the organization destroy all personally identifiable information when it is no longer needed for the study, along with a specific time period in which the information must be destroyed.

While the disclosure of personally identifiable information without consent is allowed under this exception, it is recommended that whenever possible the administration either release de-identified information or remove the students' names and social security identification numbers to reduce the risk of unauthorized disclosure of personally identifiable information.

- 6. Accrediting organizations, in order to carry out their accrediting functions.
- 7. School Readiness programs as provided in State law in order to carry out their assigned duties.
- 8. For use as evidence in student expulsion hearings conducted by a district school board under F.S. Chapter 120; however, public records of expulsion hearings shall not contain any personally identifiable information.
- 9. Appropriate parties in connection with an emergency, if knowledge of the information in the student's educational records is necessary to protect the health or safety of the student or other individuals.
- 10. The Auditor General and the Office of Program Policy Analysis and Government Accountability in connection with their official functions; however, except when the collection of personally identifiable information is specifically authorized by law, any data collected by the Auditor General and the Office of Program Policy Analysis and Government Accountability is confidential and exempt from F.S. 119.07 (1) and shall be protected in a way that does not permit the personal identification of students and their parents by other than the Auditor General, the Office of Program Policy Analysis and Government Accountability, and their staff, and the personally identifiable data shall be destroyed when no longer needed for the Auditor General's and the Office of Program Policy Analysis and Government Accountability's official use.
- 11. A court of competent jurisdiction in compliance with an order of that court or the attorney of record in accordance with a lawfully issued subpoena, upon the condition that the student and the student's parent are notified of the order or subpoena in advance of compliance therewith by the educational institution or agency.

Student records may be disclosed record pursuant to a lawfully issued subpoena, upon the condition that the

student, or his/her parent if the student is either a minor and not attending a postsecondary educational institution or a dependent of such parent as defined in 26 U.S.C. 152 (section 152 of the Internal Revenue Code of 1954), is notified of the order or subpoena in advance of compliance therewith by the educational institution or agency.

12. Credit bureaus, in connection with an agreement for financial aid that the student has executed, if the information is disclosed only to the extent necessary to enforce the terms or conditions of the financial aid agreement. Credit bureaus shall not release any information obtained under this paragraph to any person.
13. Parties to an interagency agreement among the Department of Juvenile Justice, school and law enforcement authorities, and other signatory agencies for the purpose of reducing juvenile crime and especially motor vehicle theft by promoting cooperation and collaboration, and the sharing of appropriate information in a joint effort to improve school safety, to reduce truancy and in-school and out-of-school suspensions, and to support alternatives to in-school and out-of-school suspensions and expulsions that provide structured and well-supervised educational programs supplemented by a coordinated overlay of other appropriate services designed to correct behaviors that lead to truancy, suspensions, and expulsions, and that support students in successfully completing their education. Information provided in furtherance of such interagency agreements is intended solely for use in determining the appropriate programs and services for each juvenile or the juvenile's family, or for coordinating the delivery of such programs and services, and as such is inadmissible in any court proceedings prior to a dispositional hearing unless written consent is provided by a parent or other responsible adult on behalf of the juvenile.
14. Consistent with the Family Educational Rights and Privacy Act, the Department of Children and Families or a community-based care lead agency acting on behalf of the Department of Children and Families, as appropriate.
15. Parents of a dependent student as defined by the Internal Revenue Service Tax Code of 1986 and in this policy.
16. "Directory information" as specified in this policy.
17. If the District initiates legal action (a lawsuit) against a parent, or if the parent initiates legal action against the District. In such circumstances, the District may disclose to the court, without a court order or subpoena, the education records of the student that are relevant for the District to proceed with legal action as the plaintiff or to defend itself.
18. If the release is to the Attorney General of the United States or to his/her designee in response to an ex parte order in connection with the investigation or prosecution of terrorism crimes specific in Sections 2331 and 2332 of Title 18, U.S. Code.

Under this exception, school officials are not required to record (i.e., on an access log) the disclosure of information from a student's education record when the school makes pursuant to an ex parte order.

Further, an educational institution that, in good faith, produces information from education records in compliance with an ex parte order shall not be liable to any person for that disclosure.

19. If the release is otherwise permitted under Federal law.

C. Record of Disclosures

Record of any requests or disclosures of personally identifiable student information shall be maintained except for disclosures to the parent, guardian, or eligible student; disclosure of directory information; or to any other school officials with a legitimate educational interest. The record of requests for disclosure shall include the following: the parties who have requested or obtained personally identifiable student information, the legitimate interests of the persons requesting or obtaining the information, and date parental/eligible student consent was obtained.

With regard to such disclosures, a "school official" is determined to be any employee of the School Board of Indian River County, Florida, with direct responsibility for providing services to students. A "legitimate educational interest" is determined to mean responsibility for providing direct educational services to students which will include teaching, counseling, psychological services, or other services to students which require access to personally identifiable information and/or those specified in the law.

D. Disclosures - Health or Safety Emergencies

Disclosure of personally identifiable student information may be made by school officials in the event of a health or safety emergency. Such emergency situations shall be declared in writing to the Superintendent by a recognized legal official with authority to declare such emergency. The declaration of a health or safety emergency shall include the need for

specific personally identifiable student information, the time requirements for the information, and the parties to whom the information is disclosed who are responsible for utilizing the information to deal with the emergency.

Transfer of Student Records

When a student, previously enrolled in the District transfers out of the District to another school, public or private, within this State or out of State, the Pprincipal, upon written request of the principal of the receiving school, the parent, guardian, or eligible student, shall, within three (3) school days immediately transfer a copy of the student's cumulative record containing Category A and B information to the requesting school. Pursuant to Federal law, disciplinary records with respect to suspension and expulsion shall be considered "other records of educational importance" and, as a Category B record, shall be transferred to the requesting school. The Board authorizes the administration to forward all Category A and B student records, including disciplinary records with respect to any current suspension and expulsion, upon request to a school or school district in which a student of this District is enrolled, seeks or intends to enroll, or is instructed to enroll, on a full-time or part-time basis, upon condition that the student's parents be notified of the transfer, receive a copy of the record if desired, and have an opportunity for a hearing to challenge the content of the record. The school shall retain a copy of the Category A information in its files. A copy of the Category B (Exceptional Student Education Audit File) records will also be retained. Category B health and testing information shall be retained if it is related to a weighted or categorical program placement which is subject to audit. The files which are retained will be held by the Pprincipal who is custodian of the records for the period of time specified in the Student Records Manual. Category A student records and Category B (Exceptional Student Education Audit File) beyond the specified time after the student leaves the District will be forwarded to Records Management. When a request comes to the school for student records after the files have been sent to Records Management, the written request should be forwarded to Records Management. Based upon reasonable requests, viewers of educational records will receive explanation and interpretation of the records. Records Management will make copies of the student's files at the current the District's copy rate, which shall not exceed the maximum rate for copies of public records as set forth in F.S. Chapter 119.

If applicable, the records to be transferred shall also include:

1. verified reports of serious or recurrent behavior patterns, including threat assessment evaluations and intervention services; and
2. psychological evaluations, including therapeutic treatment plans and therapy or progress notes created or maintained by School District or charter school staff, as appropriate.

The records shall be transferred within three (3) school days of receipt of a written request from the principal of the receiving school, the parent, guardian, or eligible student.

While all reasonable efforts shall be made to collect for damaged or lost library books or textbooks, under no conditions shall the transfer of a student's cumulative record be delayed or denied for failure to pay any fine or fee assessed by the school. Progress reports to parents (report cards) may not be withheld for failure to pay any fine, fee, or an assessment for lost or damaged books.

The Superintendent shall prepare administrative procedures to ensure that students and parents are adequately informed each year regarding their rights to:

- inspect and review the student's educational records;
- request amendments if the parent believes the record is inaccurate, misleading, or otherwise in violation of the student's privacy rights;
- consent to disclosures of personally-identifiable information contained in the student's educational records, except to those disclosures allowed by the law;
- challenge District noncompliance with a parent's request to amend the records through a hearing;
- file a complaint with the Department of Education;
- obtain a copy of the District's policy and administrative procedures on student records.

The Superintendent shall also develop, and update as needed, procedures for:

- the proper storage and retention of records including a list of the type and location of record;
- informing District employees of the Federal and State laws concerning student records.

The District is authorized to use the microfilm process or electromagnetic processes of reproduction for the recording, filing, maintaining, and preserving of records.

No liability shall attach to any member, officer, or employee of this District specifically as a consequence of permitting access or furnishing student records in accordance with this policy and procedures.

Any entity receiving personally identifiable information pursuant to a study, audit, evaluation or enforcement/compliance activity must comply with all FERPA regulations. Further, such an entity must enter into a written contract with the Board delineating its responsibilities in safeguarding the disclosed information. Specifically, the entity must demonstrate the existence of a sound data security plan or data stewardship program, and must also provide assurances that the personally identifiable information will not be re-disclosed without prior authorization from the Board. Further, the entity conducting the study, audit, evaluation or enforcement/compliance activity is required to destroy the disclosed information once it is no longer needed or when the timeframe for the activity has ended, as specified in its written agreement with the Board.

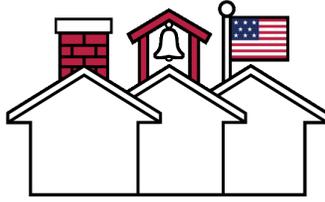

Request for Student Social Security Numbers at Enrollment

When a student enrolls in a District school, the District shall request that the student provide his/her social security number and shall indicate whether the student identification number assigned to the student is his/her social security number. A student satisfies this requirement by presenting his/her social security card or a copy of the card to a school enrollment official. However, a student is not required to provide his/her social security number as a condition for enrollment or graduation.

7440.01 - VIDEO SURVEILLANCE AND ELECTRONIC MONITORING - VIDEO SURVEILLANCE AND ELECTRONIC MONITORING

The School Board authorizes the use of video surveillance and electronic monitoring equipment at various school sites throughout the District and on school buses. The video surveillance/electronic monitoring equipment shall be used to protect Board property and assets from theft and vandalism, through deterrence and video documentation. The system is not designed nor intended to protect individuals from being victims of violent or property crimes, nor to detect other potentially illegal and undesirable activities that may occur, although information may be used as evidence in such cases.

The monitoring of actions and behavior of individuals who come onto school property is a significant factor in maintaining order and discipline. Video surveillance/electronic monitoring systems serve to complement other means being employed in the District to promote and foster a safe and secure teaching and learning environment for students and staff. The Board recognizes that the use of a video surveillance/electronic monitoring system does not replace the need for the ongoing vigilance of designated school staff to monitor and supervise the school building; rather, the video surveillance/electronic monitoring system serves as an appropriate and useful tool with which to augment or support the in-person supervision provided by staff. The principal is responsible for verifying that due diligence is observed in maintaining general campus security.

The Superintendent is responsible for determining where to install and operate fixed-location video surveillance/electronic monitoring equipment in the District. The determination of where and when to use video surveillance/electronic monitoring equipment will be made in a nondiscriminatory manner. Any unauthorized person who takes action to block, move, or alter the location and/or viewing angle of a video camera shall be subject to disciplinary action.

Any information obtained from video surveillance/electronic monitoring systems may only be used to support the orderly operation of the School District's schools and facilities, and for law enforcement purposes, and not for any other purposes. As such, recordings obtained through the use of video surveillance/electronic monitoring equipment may be used as evidence in any disciplinary proceedings, administrative proceeding or criminal proceeding, subject to Board policy and regulations. Further, such recordings may become a part of a student's education record or staff member's personnel file. The Board will not use video surveillance/electronic monitoring equipment to obtain information for the purpose of routine staff appraisal/evaluation or monitoring.

Recordings of students will be treated as confidential. Consequently, because the Board is bound by Florida's Public Records Act and the Family Educational Rights and Privacy Act (FERPA), copies of video recordings containing personally identifiable information about students shall not be released except to school officials with legitimate educational interests. Parents or guardians of minor students, and students who are eighteen (18) years of age or older, who are charged with disciplinary violations may view relevant portions of any video recording related to the charge, upon written request to the principal, provided that viewing the recording does not violate State and/or Federal law (i.e., the privacy rights of any other students whose images appear on the recording). Likewise, school personnel may view relevant portions of any video relating to any disciplinary charge against them, upon written request to the building principal, provided that viewing the recording does not violate State and/or Federal law (i.e., the privacy rights of any students whose images appear on the recordings). Otherwise, such confidential recordings shall only be released as authorized under or required by State and Federal laws.

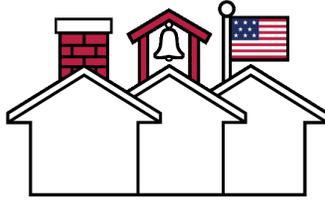

Video surveillance/electronic monitoring recordings may be retained beyond the retention period required by law if they are going to be utilized for training purposes or as required by law pursuant to Policy 8315 - Information Management and Administrative Procedure 8315 - Litigation Hold Procedure. This policy does not address or cover instances where school officials record a specific event (e.g., a play, music performance, athletic contest, graduation, or Board meeting) or an isolated instance where a classroom is videotaped for educational or research purposes. Authorized videotaping for educational, instructional and/or research purposes is permitted and is not addressed by this policy.

Video surveillance is to be implemented in accordance with this policy and the related administrative procedures. The Board will not accept or tolerate the improper use of video surveillance/electronic monitoring equipment and will take appropriate action in any cases of wrongful use of this policy.

Periodically, the Superintendent shall conduct a review to verify that this policy and its implementing procedures are being adhered to and report to the Board on the use of video surveillance/electronic monitoring equipment in the District.

8405 - **SCHOOL SAFETY AND SECURITY**

The School Board is committed to maintaining a safe and drug-free environment in all of the District's schools. The Board believes that school crime and violence are multifaceted problems that need to be addressed in a manner that utilizes all available resources in the community through a coordinated effort of School District personnel, law enforcement agencies, and families. The Board further believes that school administrators and local law enforcement officials must work together to provide for the safety and welfare of students while they are at school or a school-related event or are on their way to and from school. The Board also believes that the first step in addressing school crime and violence is to assess the extent and nature of the problem(s), and then plan and implement strategies that promote school safety and minimize the likelihood of school crime and violence. To that end, the Superintendent shall develop an Emergency Management Plan with input from representatives of the local law enforcement agencies; the local Fire Marshall(s) or his/her designee(s); representative(s) from emergency medical services; building administrators; School Resource Officer(s); and/or other District employees.

Thereafter, the Superintendent shall convene a meeting annually for the purpose of reviewing the Emergency Management Plan, and making modifications as deemed necessary and proper; identifying additional training that might be needed; and discussing any other such related matters as may be deemed to be necessary by the participants. Participants in this meeting shall include the Superintendent; representatives of the local law enforcement agencies; the local Fire Marshall(s) or his/her designee(s); representative(s) from emergency medical services; building administrators; representative(s) from the local emergency management service agency; School Resource Officer(s); and/or other District employees.

10. responsibilities prior to law enforcement arrival;
11. responsibilities when law enforcement arrives on school grounds;
12. communication with the public; and
13. post-incident recovery.

The District will adopt its initial DAARP by October 1, 2019, and annually thereafter.

Further, by October 1st of each year, the Superintendent shall certify to the Office of Safe Schools that all school personnel have received annual training on the procedures contained in the District's DAARP.

Recommendations of the School Safety Specialist

Based on the findings of the school security risk assessment, the School Safety Specialist must provide recommendations to the Superintendent and Board which identify strategies and activities that is submitted to the Board for implement in order to address the findings and improve school safety and security. ~~Annually, t~~The Board will review the school risk assessment findings and the recommendations of the School Safety Specialist at a publicly noticed Board meeting to provide the public an opportunity to hear the Board members discuss and take action. The School Safety and Security Plan is however, confidential and is not subject to review or release as a public record.

The School Safety Specialist shall report the school security risk assessment findings and the Board's action(s) to the Office of Safe Schools no later than thirty (30) days after the Board meeting.

As a part of the School Safety and Security Plan, the Board shall verify that it has procedures in place for keeping schools safe and drug-free that include (see also, Form 8330 F15 entitled checklist of policies and guidelines addressing No Child Left Behind Act of 2001):

 3. allows a teacher to communicate effectively to all students in the class;
 4. has consequences that are fair, and developmentally appropriate;
 5. considers the student and the circumstances of the situation; and
 6. is enforced accordingly.

Safety and Security Best Practices

The Superintendent shall develop administrative procedures for the prevention of violence on school grounds, including the assessment and intervention with individuals whose behavior poses a threat to the safety of the school community.

Persistently Dangerous Schools

The Board has set forth the rules with regard to expected behavior in Policy 5500 - Student Conduct and has established the consequences for violating the policy on student conduct in Policy 5600 - Student Discipline. The Board recognizes that not only Federal, but also State law requires that the District report annually incidents which meet the statutory definition of violent criminal offenses that occur in a school, on school grounds, on a school conveyance, or at a school-sponsored activity, as well as those incidents that would be a Gun-Free Schools Act violation. It is further understood that the Florida Department of Education

will then use the data for the offenses identified in the Department's Unsafe School Choice Option Policy to determine whether or not a school is considered "persistently dangerous".

Pursuant to the Board's stated intent to provide a safe school environment, school administrators are expected to respond appropriately to any and all violations of the Student Code of Conduct, especially those of a serious, violent nature. In any year where the number of reportable incidents of violent criminal offenses in any school exceed the threshold number established in State law, the Superintendent shall discuss this at the annual meeting for the purpose of reviewing the *School Safety and Security Plan* so that a plan of corrective action can be developed and implemented in an effort to reduce the number of these incidents in the subsequent year and/or convene a meeting of the building administrator, representative(s) of the local law enforcement agencies, and any other individuals deemed appropriate for the purpose of developing a plan of corrective action that can be implemented in an effort to reduce the number of these incidents in the subsequent year.

The Superintendent shall make a report to the Board about this plan of corrective action and shall recommend approval and adoption of it.

In the unexpected event that the number of reportable incidents in three (3) consecutive school years exceeds the statutory threshold and the school is identified as persistently dangerous, the Superintendent shall offer parents and eligible students the opportunity to transfer to another school within the District that serves the same grades. If there is another school within the District serving the same grades, the transfer shall be completed in a timely manner. If there is not another school within the District that serves the same grades, then parents and eligible students will be advised that, although Federal and State law provides for an opportunity to transfer, they will be unable to do so.

In addition, the Superintendent shall discuss this at the annual meeting for the purpose of reviewing the *School Safety and Security Plan* so that a plan of corrective action can be developed and implemented in an effort to reduce the number of these incidents in the subsequent year and/or convene a meeting of the building administrator, representative(s) of the local law enforcement agencies, and any other individuals deemed appropriate for the purpose of developing a plan of corrective action that can be implemented in an effort to reduce the number of these incidents in the subsequent year.

If a school in a neighboring district is identified as persistently dangerous and there is not another school or public school academy in that district, the District will admit students from that school in accordance with Board Policy 5113.

Victims of Violent Crime

The Board further recognizes that, despite the diligent efforts of school administrators and staff to provide a safe school environment, an individual student may be a victim of a violent crime in a school, on school grounds, on a school conveyance, or at a school-sponsored activity. In accordance with Federal and State laws the parents or the eligible student shall be offered the opportunity to transfer to another school within the District that serves the same grades. If there is another school serving the same grades, the transfer shall be completed in a timely manner. If there is not another school serving the same grades, the parents or eligible student will be advised that, although they have the right to transfer, they will be unable to do so.

Threat Assessment Teams

The primary purpose of a threat assessment is to minimize the risk of violence at schools. Threat assessment teams are responsible for the coordination of resources and assessment and intervention with individuals whose behavior may pose a threat to the safety of school staff or students consistent with the model policies [and procedures developed by the Office of Safe Schools which addresses early identification, evaluation, early intervention, and student support.](#)

A. Location and Membership

1. Threat assessment teams are located at each school in the District and composed of individuals with expertise in counseling, instruction, school administration, and law enforcement.
2. The Board authorizes the Superintendent to create procedures for the purpose of:
 - a. identifying team participants by position and role;
 - b. designating the individuals (by position) who are responsible for gathering and investigating information; and
 - c. identifying the steps and procedures to be followed from initiation to conclusion of the threat assessment inquiry or investigation.

B. Responsibilities and Activities of Threat Assessment Teams

The responsibilities and activities of threat assessment teams include, but are not limited to, the following:

1. identification of individuals in the school community to whom threatening behavior should be reported and provide guidance to students, faculty, and staff regarding recognition of threatening or aberrant behavior that may represent a threat to the community, school, or self;
2. [utilizing the Department's behavior threat assessment instrument developed pursuant to F.S. 1001.212](#);
3. consult with law enforcement when a student exhibits a pattern of behavior, based upon previous acts or the severity of an act, that would pose a threat to school safety;
4. consult with law enforcement when a student commits more than one (1) misdemeanor to determine if the act should be reported to law enforcement;
5. if a preliminary determination is made by the threat assessment team that a student poses a threat of violence or physical harm to himself/herself or others, the threat assessment team will report its determination to the Superintendent;

The Superintendent shall immediately attempt to notify the student's parent or legal guardian. However, nothing in this paragraph shall preclude District personnel from acting immediately to address an imminent threat.

6. if a preliminary determination is made by the threat assessment team that a student poses a threat of violence to himself/herself or others or exhibits significantly disruptive behavior or need for assistance, [authorized members of the threat assessment team may obtain criminal history record information pursuant to F.S. 985.04\(1\), as provided in F.S. 985.047](#);

Members of the threat assessment team may not disclose any criminal history record information obtained pursuant to this paragraph or otherwise use any record of an individual beyond the purpose for which such disclosure was made to the threat assessment team.

7. create procedures related to engaging behavioral health crisis resources.

C. Sharing of Information

The District and other agencies and individuals that provide services to students experiencing, or at risk of, an emotional disturbance or a mental illness and any service or support provider contracting with such agencies may share with each other records or information that are confidential or exempt from disclosure under F.S. Chapter 119 if the records or information are reasonably necessary to ensure access to appropriate services for the student or to ensure the safety of the student or others.

D. Immediate Mental Health or Substance Abuse Crisis

If an immediate mental health or substance abuse crisis is suspected, school personnel shall follow policies established by the threat assessment team to engage behavioral health crisis resources. Behavioral health crisis resources, including, but not limited to, mobile crisis teams and school resource officers trained in crisis intervention shall provide emergency intervention and assessment, make recommendations, and refer the student for appropriate services. Onsite school personnel shall report all such situations and actions taken to the threat assessment team, which shall contact the other agencies involved with the student and any known service providers to share information and coordinate any necessary follow-up actions. [Upon the student's transfer to a different school, the threat assessment team shall verify that any intervention services provided to the student remain in place until the threat assessment team of the receiving school independently determines the need for intervention services.](#)

Each threat assessment team shall report quantitative data on its activities to the Office of Safe Schools [and shall utilize the threat assessment database developed pursuant to F.S. 1001.212](#).

Referral to Mental Health Services

All school personnel who receive training pursuant to F.S. 1012.584 shall be notified of the mental health services that are available in the District.

School Environmental Safety Incident Reporting

The superintendent is responsible for ensuring the accurate and timely reporting of incidents related to school safety and discipline in accordance with Florida law and rules promulgated by FL DOE.

-

Student Crime Watch Program

The Board shall implement a Student Crime Watch Program to promote responsibility among students and improve school safety. Through a Board resolution, the Board will require each school principal to distribute information (including a reference to Policy 8406) at their respective schools notifying students and the community as to how they can anonymously relay information concerning unsafe and potentially harmful, dangerous, violent, or criminal activities, or the threat of these activities, to appropriate public safety agencies and school officials.

Promotion of School Safety Awareness

-

In furtherance of Policy 8406 (*Reports of Suspicious Activity and Potential Threats to Schools*), the Board shall promote the use of the Florida Department of Education's mobile suspicious reporting tool ("FortifyFL") on the District's website, in newsletters, on school campuses, and in school publications. FortifyFL shall also be installed on all mobile devices issued to students and bookmarked on all computer devices issued to students.

Implementation

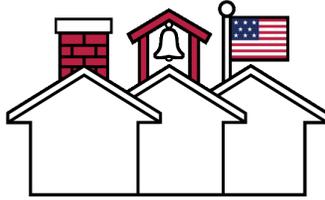

-

~~The Superintendent shall develop administrative procedures as needed to enable proper implementation of this policy.~~

The Superintendent shall publish a notification on Management Plan availability and the status of asbestos activities; educate and train School District employees about asbestos and how to deal with it; notify short-term or temporary workers on the locations of the asbestos containing building materials; post warning labels in routine maintenance areas where asbestos was previously identified or assumed; follow set plans and procedures designed to minimize the disturbance of asbestos containing building materials; and survey the condition of these materials every six (6) months to assure that they remain in good condition.

The Superintendent designates the Assistant Superintendent of Operations~~Director of Maintenance~~ as the District's designated Asbestos Program Coordinator. All inquiries regarding the asbestos plan and asbestos-related issues should be directed to the AHERA designated person at 772-564-~~5060~~5082.

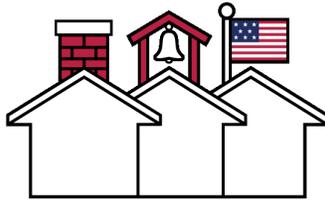

The Superintendent shall appoint the Assistant Superintendent of Operations to develop and implement a District Asbestos-Management Program. Said individual will be responsible for the District's proper compliance with Federal and State laws and the appropriate instruction of staff and students.

The Superintendent shall also require that, when conducting asbestos abatement projects, each contractor employed by the District is licensed pursuant to the Florida Department of Health Regulations.

Nothing in this policy should be construed in any way as an assumption of liability by the Board for any death, injury, or illness that is the consequence of an accident or equipment failure or negligent or deliberate act beyond the control of the Board or its officers and employees.

8500 - **FOOD SERVICE PROGRAM**

The School Board shall provide cafeteria facilities in all school facilities where space and facilities permit and will provide food service for the purchase and consumption of lunch for all students. The Board shall annually encumber the funds needed to operate the program.

It is the intent of the Board to participate in the National School Lunch and School Breakfast Program and to offer paid, free, or reduced-price meals in accordance with the Child Nutrition Program, the National School Lunch Act, and Florida law. The operation of the food service program shall also be in compliance with the regulations set forth in State law and the Florida Administrative Code.

The Board does not discriminate on the basis of race, color, national origin, sex (including transgender status, sexual orientation, or gender identity), disability (including HIV, AIDS, or sickle cell trait), pregnancy, age (except as authorized by law), religion, military status, ancestry, or genetic information (collectively, "protected classes"), in its educational programs or activities. Students and all other members of the School District community and third parties are encouraged to promptly report incidents of unlawful discrimination and/or retaliation to a teacher, administrator, supervisor, or other District official so that the board may address the conduct. See Policy 2260 – Nondiscrimination and Access to Equal Educational Opportunity.

Students who are eligible for free or reduced-price meals shall be approved and properly accounted for by the Principal in accordance with criteria established by the Child Nutrition Program and National School Lunch Act. The Board requires that the identity of students receiving free or reduced-price meals be safeguarded and kept confidential.

Each elementary, middle, and high school shall make a breakfast meal available if a student arrives at school on the bus less than fifteen (15) minutes before the first bell rings and shall allow the student at least fifteen (15) minutes to eat the breakfast.

The operation and supervision of the food service program shall be the responsibility of the School Nutrition Program Director. The District will adhere to the professional standards for school nutrition personnel who manage and operate the food service program, including the requirements related to hiring and training that are set forth in USDA regulations and AP 8500A.

Further, as required by USDA regulations and upon recommendation of the Superintendent, the Board will annually certify:

- A. the School Nutrition Program Director meets the hiring standards and training requirements set forth in USDA regulations; and
- B. each employee in the food service program has completed the applicable training requirements set forth in USDA regulations.

Breakfast meals shall be available to all students in each elementary, middle, and high school. The Board will do so by participating in the National School Breakfast Program and offering paid, free, and reduced-priced breakfast meals in accordance with USDA Guidelines.

The food service program shall comply with Federal and State regulations pertaining to the selection, preparation, consumption, and disposal of food and beverages, including but not limited to the current USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards as well as to the fiscal management of the program.

The Board shall provide a Federal food service program for students during summer intervention programs that are mandated under Federal law. If the Board determines that it is unable to provide a Federal food service program during the summer, for financial reasons, the Board will communicate that decision to its residents in a manner it determines to be appropriate.

The Board shall approve and implement nutrition standards governing the types of food and beverages that may be sold on the premises of its schools and shall specify the time and place each type of food or beverage may be sold.

In adopting such standards, the Board shall:

- A. consider the nutritional value of each food or beverage;
- B. consult with a dietitian licensed under F.S. 468.509, a dietetic technician registered by the commission on dietetic registration, or a school nutrition specialist certified or credentialed by the school nutrition association;
- C. consult and incorporate to the maximum extent possible the dietary guidelines for Americans jointly developed by the United States Department of Agriculture (USDA) and the United States Department of Health and Human Services; and
- D. consult and incorporate the USDA Smart Snacks in School nutrition guidelines.

No food or beverage may be sold on any school premises except in accordance with the standards approved by the Board.

The Superintendent shall recommend and the Board shall approve the cost of meals for elementary, middle, and high schools annually.

Meal Charges

The Board recognizes that circumstances may result in a student needing to charge for meals if his/her account has an insufficient balance to cover the charge. However, no account will be allowed to exceed a significant negative balance except as established below.

The Superintendent shall develop procedures regarding meal charges, which shall be implemented by the Director of Food and Nutrition Services. This procedure will provide direction so that students Districtwide who are eligible for reduced price or who pay the established price for meals, but do not have funds in their account or in hand to cover the cost of their meal at the time of service are treated consistently, that parents of students who charge meals are notified when a student charges a meal, and that efforts are made to collect the charges made so that the unpaid charges are not classified as "bad debt" at the end of the school year.

A student whose account has a significant negative balance may not charge or purchase "a la carte" items, including extra main course entrees.

If a student has a significant negative lunch account balance, s/he shall be provided an alternate meal recommended by the Superintendent. The parent(s) shall be contacted to collect the outstanding charges. The alternate meal will be a low-cost alternative to the regular reimbursable meal and shall meet USDA nutritional standards or the Smart Snacks in Schools regulations so that it qualifies for reimbursement under the National School Lunch/Breakfast Program.

If the negative balance is not brought to a positive balance within ninety (90) days of these efforts, the School District will take action to collect the unpaid debt.

If a student withdraws or graduates and has a positive balance, the balance may be receipted into the school lunch fund where the school lunch program funds are maintained. If a student withdraws or graduates with a positive balance, parents shall be notified by mail and given the option of receiving a refund. If no response is received within fourteen (14) days, the account will be closed and the funds will no longer be available. Unclaimed balances will be transferred to the school lunch fund where the school lunch program funds are maintained.

If determined appropriate by a student's Section 504 team, substitutions to the standard meal requirements shall be made, at no additional charge, for a student for whom a health care provider who has prescriptive authority in the State of Florida has provided medical certification that the student has a disability that restricts his/her diet, in accordance with the criteria set forth in 7 C.F.R. Part 15b. To qualify for such substitutions the medical certification must identify:

- A. the student's disability and the major life activity affected by the disability;
- B. an explanation of why the disability affects the student's diet; and
- C. the food(s) to be omitted from the student's diet and the food or choice of foods that must be substituted (e.g., caloric modifications or use of liquid nutritive formula).

Dietary Modifications

A request for substitutions to the standard meal requirements due to food allergies shall be accommodated, when requested by an adult student with a disability or the parent of a student with a disability, without delay and at no additional charge. The adult student with a disability or the parent of a student with disability making such a request of the Food Service Director shall be informed that medical certification that the student has a disability that restricts his/her diet, in accordance with the criteria set forth in 7 C.F.R. Part 15b must be submitted within thirty (30) school days from a health care provider who has prescriptive authority in the State of Florida or the dietary modification may be discontinued until such statement is received.

~~If determined appropriate by a team of qualified individuals including, but not limited to, the principal, school nurse, parent, Director of Food Services, Nutrition Specialist substitutions to the standard meal requirements may be made, at no additional charge, for a student who is not "disabled person", but have a signed statement from a qualified medical authority that the student cannot consume certain food items due to medical or other special dietary needs. To qualify for such consideration and substitutions the medical statement must identify:~~

The medical certification must identify:

- A. the child's physical or mental impairment and why the student's disability or medical conditions necessitates such a restriction of the child's diet ~~medical or dietary need that restricts the student's diet;~~ and
- B. an explanation of why the food service program must do to accommodate the child's disability why the disability affects the student's diet; and ~~the food(s) to be omitted from the student's diet and the food(s) or choice of foods that may be substituted-~~
- C. the food(s) to be omitted from the student's diet and the recommended food or choice of foods that must be substituted (e.g., caloric modifications or use of liquid nutritive formula).

After a request for a dietary modification is submitted to the Director of Food Service, the Director of Food Service shall, in turn, notify the Principal, school nurse, and the members of the student's IEP or 504 Team that the dietary modification shall be made for the student, pending the receipt of the required medical certification.

If deemed necessary by the student's IEP or 504 Team, the dietary modification shall be included in the student's IEP or 504 plan.

An adult student with a disability or the parent of a student with a disability who believes the accommodation requested is not being appropriately addressed may access the processes and assistance described in Policy 2260 and/or Policy 2260.01 by contacting the District's Compliance Coordinator named in those policies.

A request for substitutions to the standard meal requirements due to food allergies shall be accommodated, when requested by an adult student who is not identified as having a disability or the parent of a student who is not identified as having a disability, without delay and at no additional charge. An adult student who is not identified as having a disability or the parent of a student who is not identified as having a disability making such a request of the Director of Food Service shall be informed that a signed medical statement from a health care provider who has prescriptive authority in the State of Florida that the student cannot consume certain food items due to a medical condition or some other special dietary need must be submitted within thirty (30) school days or the dietary modification may be discontinued until such statement is received.

To qualify for continuing consideration and substitutions the medical statement must identify:

- 1. the medical or dietary need that restricts the student's diet;
- 2. the food(s) to be omitted from the student's diet and the food(s) or choice of foods that may be substituted.; and

3. the food(s) to be omitted from the student's diet and the recommended food or choice of foods that must be substituted (e.g., caloric modifications or use of liquid nutritive formula).

The request for such dietary modifications shall be submitted to the Director of Food Service, who shall, in turn, notify the Principal and school nurse that the dietary modification shall be made for the student. Upon request of the parent or adult student, a meeting of a team including the parent, the Director of Food Service, school nurse, and Principal shall be convened to determine the specific substitution(s) that will be made to the standard meal pattern for the student.

For non-disabled Students who need a nutritionally equivalent milk substitute, only a signed request by a parent or guardian is required.

The food service program shall accommodate a student's request for specific substitutions to the standard meal pattern requirements that is based solely on religious or lifestyle choices.

In addition to students, lunches sold by the school may be purchased by staff members and community residents in accordance with administrative guidelines established by the Superintendent. Lunches may be made available, free of charge, to senior citizens who are serving as volunteers to the District.

During all times while the food service program is operating and students are being served food, at least one (1) employee shall be present in the area in which the food is being consumed who has received instruction in methods to prevent choking and demonstrated an ability to perform the Heimlich maneuver.

Food Safety Compliance

In addition, as required by law, a food safety program that is based on the principles of the Hazard Analysis and Critical Control Point (HACCP) system shall be implemented with the intent of preventing food-borne illnesses. For added safety and security, access to the facility and the food stored and prepared therein shall be limited to food service program staff and other authorized persons.

In accordance with Federal law, the Superintendent shall take such actions as are necessary to obtain a minimum of two (2) food safety inspections per school year, which are conducted by the State or local governmental agency responsible for food safety inspections. The report of the most recent inspection will be posted in a publicly visible location, and a copy of the report will be available upon request.

A periodic review of the food-service accounts shall be made by the Auditor General. Any surplus funds from the National School Lunch Program shall be used to reduce the cost of the service to students or to purchase cafeteria equipment. Surplus funds from a-la-carte foods may accrue to the food-service program.

Bad Debt

Meal charges that are not collected in the year when the debt was incurred shall be classified as bad debt.

Bad debt incurred through the inability to collect lunch payment from students is not an allowable cost chargeable to any Federal program.

Once classified as bad debt, non-Federal funding sources shall reimburse the school lunch program account for the total amount of the bad debt. If funds to reimburse the District for this bad debt are not available from another source, such as school or community organizations (like the PTA) or any other non-Federal source, the funds to reimburse the school lunch program shall be transferred from the District's general fund or other State or local funding to make that reimbursement.

Once the uncollectable/delinquent debt charges are converted to bad debt, records relating to those charges must be maintained in accordance with the record retention requirements in 7 C.F.R. 210.9(b)(17) and 7 C.F.R. 210.15(b).

Any related collection cost, including legal cost, arising from such bad debt after they have been determined to be uncollectable are also unallowable.

Operation of the Food Service Program

With regard to the operation of the school food service program, the Superintendent shall require:

- A. the maintenance of sanitary, neat premises free from fire and health hazards;
- B. the preparation of food that complies with Federal food safety regulations;

- C. the planning and execution of menus in compliance with USDA requirements:
- D. the purchase of food and supplies in accordance with State and Federal law, USDA regulations, and Board policy; (see Policy 1129, Policy 1214, Policy 3129, Policy 3214, Policy 4129, Policy 4214, and Policy 6460)
- E. complying with food holds and recalls in accordance with USDA regulations;
- F. the administration, accounting, and disposition of food-service funds pursuant to Federal and State law and USDA regulations;
- G. the safekeeping and storage of food and food equipment pursuant to State and Federal law and USDA regulations;
- H. the regular maintenance and replacement of equipment;
- I. all District employees whose salaries are paid for with USDA funds or non-Federal funds used to meet a match or cost share requirement must comply with the District's time and effort record-keeping policy (see Policy 6116).

The Superintendent will require that the food service program serve foods in the schools of the District that reinforce the nutrition concepts taught in the classrooms.

The District shall serve only nutritious food in accordance with the nutritional standards adopted by the Board in compliance with the current USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition guidelines. Foods and beverages in competition with the District's food-service program must comply with the current USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition guidelines, and may only be sold in accordance with Board Policy 8550.

The Superintendent is responsible for implementing the food service program in accordance with the adopted nutrition standards and shall provide a report regarding the District's compliance with the standards at one of its regular meetings annually.

Unnecessary and Duplicative Items

The District shall avoid acquisition of unnecessary or duplicative items. Consideration will be given to consolidating or breaking out procurements to obtain a more economical purchase. Where appropriate, an analysis will be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

FLORIDA LOCAL UPDATE

VOLUME 19, NUMBER 2 April 2019

This update includes proposed revisions to twenty-two (22) current policy templates, revisions to two (2) current bylaws, one (1) new bylaw, the addition of two (2) new policy templates, revisions to three (3) current administrative procedures, and the addition of two (2) new administrative procedures. This update also includes administrative procedures correlated to the policies from the Volume 19, Number 1 update that was distributed in September of 2018, which includes revisions to fifteen (15) current administrative procedures and the addition of one (1) new administrative procedures.

This update is the result of legislation enacted during the 2018 Florida Legislative session, our ongoing work with clients during the 2018-2019 school year, and review of Federal and State Law, the Florida Administrative Code, other regulations by Federal and State agencies, applicable court decisions, and Attorney General's opinions.

The Superintendent should recommend the adoption of the new and revised policies and the Board should approve the Superintendent's recommendation so that the Board's policies are legally correct.

Training will be provided by BoardDocs and NEOLA staff and support will be available to those working on this platform prospectively.

Bylaws and Policies

Bylaw 0100 - Definitions (REVISED)

Bylaw 0100 was revised to remove the definition of "Relative," because Florida law provides for varying definitions of the term "relative" depending on the particular issue. Thus, instead of providing a uniform definition of "Relative," we have cited to the applicable statutory definition of "Relative" when that term is used throughout our policy templates.

Clarity is also provided to the definition of "Superintendent" by stating that s/he is a Constitutional Officer under the Florida Constitution and that use of capital "S" "Superintendent" or lower case "s" "superintendent" in policy implies that the Superintendent has authority to delegate his/her responsibilities, unless such delegation is expressly prohibited by law.

Bylaw 0124 - Standards of Ethical Conduct (REVISED)

Bylaw 0124 was revised as a result of Florida Chapter Law 2018-5 (2018 Regular Session) (<http://laws.flrules.org/2018/5>). This provision requires the School Board to adopt standards of ethical conduct for Board members becomes effective July 1, 2019. In drafting the standards offered for consideration in this bylaw, Neola utilized the *Principles of Professional Conduct for the Education Profession in Florida* as a foundation and modified them to be more relevant to the actions, duties, and obligations of

individual members of the District School Board. As when this bylaw was initially offered, Neola suggests that members of the District School Board should hold themselves to the same standards as District employees are held. If the members of the District School Board would prefer drafting their own, District-specific *Standards of Ethical Conduct*, an option to do that is offered in the revised template.

Pursuant to the law, the revisions to this bylaw also specify that Board members are required to annually receive training on the standards of ethical conduct.

Bylaw 0147.1 - Travel and Per Diem (NEW)
Policy 6550 - Travel and Per Diem (REVISED)

The adoption of Bylaw 0147.1 is intended to address certain limitations on Board member travel. Pursuant to Florida Chapter Law 2018-5, Board members seeking to spend \$500.00 for travel outside their county must obtain prior approval from the Board, confirm that such travel is for official business of the Board, and be in compliance with the rules of the State Board of Education. Additionally, Board members seeking to travel outside of Florida must include an itemized list detailing all anticipated travel expenses including, but not limited to, the anticipated costs of all means of travel, lodging, and subsistence. The public must also be given an opportunity to speak on any Board member's specific travel agenda item prior to the Board taking action on whether to approve or deny the travel request.

Since Board member travel and per diem is now addressed thoroughly in Bylaw 0147.1, the duplicate language pertaining to members of the District School Board in Policy 6650 should be deleted (see proposed revisions to Policy 6650 below).

Policy 1130 - Appointment, Assignment, Transfer, and Promotion of Administrators (REVISED)
Policy 3130 - Appointment, Assignment, Transfer, and Promotion of Instructional Staff (REVISED)
Policy 4130 - Appointment, Assignment, Transfer, and Promotion of Support Staff (REVISED)

Revisions to these policies specify that neither the superintendent nor a Board member may appoint or employ a relative to work under their direct supervisions that were required by legislation approved during the 2018 legislative session, and as referenced in Florida Chapter Law 2018-5. These provisions take effect on July 1, 2019. Importantly, these limitations do not apply to employees appointed or employed before the election or appointment of the superintendent or a Board member.

Policy 1210 - Standards of Ethical Conduct (REVISED)

Policy 1210 was revised to clarify that the term "administrator" includes the superintendent and "administrative personnel" as those terms are defined in F.S. 1012.01.

Language was also added to the policy specifying certain circumstances within which the superintendent may be required to forfeit his/her salary for one (1) year. See, F.S. 1001.42(7).

Policy 1242 - Professional Development (REVISED)
Policy 3242 - Professional Development (REVISED)
Policy 4242 - Staff Development (REVISED)

Revisions to these policies incorporate amendments to F.A.C. Rule 6A-5.071. In November of 2018, FL DOE amended the rule to rename "Master Inservice Plan" to "Professional Learning Catalog." Other amendments to the rule address the content of Catalogs, review/approval processes, and data maintenance/reporting.

Policy 4242 was also revised to remove references to "teachers" as opposed to "staff members." The policy pertains to staff members, so teachers should not have been included in the policy.

Policy 2371V1 - Hope Scholarships (REVISED)
Policy 2371V2 - Hope Scholarships (REVISED)

On March 1, 2019, the Florida Department of Education (FL DOE) issued a Memorandum to all School District Superintendents regarding the Hope Scholarship Program. See: <https://info.fl DOE.org/docushare/dsweb/Get/Document-8483/dps-2019-10.pdf>. Importantly, FL DOE strongly takes the position that F.S. 1002.40 does not require substantiation of an incident in order for the District to be required to provide notice to a student's parent of the availability of the Hope Scholarship Program. While Neola is of the position that the legislative intent expressed in F.S. 1002.40(1) makes clear that the program should only be available to those students who were "subjected to an incident" as opposed to those who simply report an incident, we understand that some school districts may prefer a policy that adopts FL DOE's position.

Policy 2371V1 incorporates Neola's interpretation of F.S. 1002.40.

Policy 2371V2 incorporates FL DOE's position as outlined in its March 1, 2019, Memorandum.

Policy 2460.01 - Least Restrictive Environment (DELETE)

Policy 2460.01 contains language very similar to that in Policy 2460. It is, therefore, in our judgment, duplicative, redundant, and unnecessary. It is recommended that this policy be rescinded by Board action.

Policy 3120 - Employment of Instructional Staff (REVISED)

Revisions to this policy are the result of changes to F.A.C. Rule 6A-1.0503 which now includes a definition for "In-Field." Outdated references to "highly qualified" and "NO CHILD LEFT BEHIND" were also removed.

Policy 3220 - Evaluation of Instructional Personnel (REVISED)

Policy 3220 was revised to specify that the District "may" as opposed to "shall" measure student learning growth using the formulas approved by the Commissioner and the standards for performance levels adopted by the State Board for courses associated with the Statewide, standardized assessments administered under F.S. 1008.22. See, E.S. 1012.34 (7)(b).

Policy 4162 - Drug and Alcohol Testing of CDL License Holders and Other Employees who Perform Safety-Sensitive Functions (REVISED)

Policy 4162 was revised to clarify that individuals who drive vehicles designed to transport 16 or more people (including the driver) are required to have a CDL license.

Policy 5540 - The Schools and Investigations Involving Students (REVISED)

The revision to Policy 5540 is technical and merely updates the website link for reporting suspected child abuse, abandonment, or neglect.

Policy 6233 - District Budget (REVISED)

Policy 6233 was revised as a result of Florida Chapter Law 2018-5 which now requires the superintendent to reduce the District's administrative expenditures if the projected portion of the general fund's ending fund balance not classified as restricted, committed, or nonspendable in the District's approved operating budget falls below three percent (3%) of projected general fund revenues for two consecutive fiscal years.

Policy 6322 - Construction Contracting and Bidding (REVISED)

Policy 6322 was revised to correct a clerical error from the 19-1 release regarding the Board's ability to negotiate directly with a bidder.

Policy 6325 - Procurement - Federal Grants/Funds (REVISED)

Policy 6325 now specifies that the School Board must take affirmative steps to assure that small businesses (in addition to others) are used in accordance with Federal law. Policy 6325 also references AP 6325 which has been revised substantially as addressed *infra*.

Policy 6480 - Expenditures (REVISED)

This policy was revised to clarify the procedure that must be undertaken by the School Board to amend its budget when it seeks to exceed the amount budgeted by function and object. Additionally, the policy was revised to address spending limitations imposed under Florida law when certain financial conditions exist.

Policy 6605 - Crowdfunding (REVISED)

This policy was revised to emphasize that crowdfunding activities must adhere to state and federal laws applicable to student privacy. Additional language was also added to specify that proceeds from crowdfunding activity becomes the property of the District or school and that District personnel are prohibited from accepting cash or equivalent payments. Finally, the definition of "crowdfunding" was slightly modified.

Policy 6830 - External Financial Audits (REVISED)

As a result of Florida Chapter Law 2018-5, School Boards are required to conduct an audit overview during a public meeting if an audit contains a significant "deficiency or material weakness" (prior statutory language referred to "finding"). The audit overview is also required to describe the corrective action to be taken and a timeline for completion.

Policy 7440.01 - Video Surveillance and Electronic Monitoring (NEW)

Policy 7440.01 is a new policy intended to address the School Board's use of video surveillance and electronic monitoring. In our experience, including in Florida and other states, most school districts utilize such equipment.

Importantly, although not contained in the policy, Districts must be aware that the General Records Schedule (GS1-SL) for State and Local Government Agencies (Item #302) requires that surveillance recordings created to monitor activities occurring inside and/or outside of public buildings and/or public property (including school buses) must be retained for no less than 30 days.

Policy 8141 - Mandatory Reporting of Misconduct (REVISED)

Policy 8141 was substantially revised in the 19-1 update as a result of multiple bills that passed during the 2018 legislative session (see Florida Chapter Laws 2018-5 and 2018-150). The proposed revision as part of this update deletes language that may be interpreted to require only certificated employees to report matters of misconduct, including convictions of certain crimes, to the Superintendent and Florida Department of Education. It is Neola's interpretation that all employees (certificated and non-certificated) must report misconduct, and convictions of certain crimes, to the Superintendent.

Policy 8431 - Preparedness for Toxic Hazard and Asbestos Hazard (REVISED)

The revisions to this policy is technical and merely deletes "Material" from "Material Safety Data Sheets." SDS (formerly MSDS) is the current industry term.

Policy 8500 - Food Service Program (REVISED)

The revisions to this policy primarily relate to dietary modifications. In particular, Neola has been advised by the United States Department of Agriculture (USDA) that school districts should not wait for medical certification to initially accommodate a student's request for a dietary modification; rather, the school district should approve the request, provide the student with notice that h/she must provide medical certification within so many days and, if no certification is provided, the dietary modification may be discontinued. Moreover, USDA is of the opinion that dietary modifications need to be reviewed and approved by the student's IEP or Section 504 Team.

Policy 9211 - Parent Organizations, Booster Clubs, and Other Outside Support Organizations (REVISED)

The revisions to this policy are intended to more clearly distinguish between school-based and outside support organizations. Moreover, since outside support organizations typically provide financial support to school districts and are involved in school district activities, we included revised policy language that allows school districts to more closely monitor these organizations.

Procedures for Vol. 19 No. 2

AP 3121 - Selection of Instructional Personnel (REVISED)

The revisions to this procedure incorporate the new definition of "In-Field" and delete outdated references to "highly qualified" and "No Child Left Behind Act of 2001).

I. TITLE IX

On November 16, 2018, the U.S. Department of Education ("USDOE") unveiled its proposed amended regulations implementing Title IX. You may recall that in September 2017, the USDOE withdrew its Title IX guidance on campus sexual assault – specifically its April 2011 Dear Colleague Letter and April 2014 Q&A, – and USDOE's Office for Civil Rights ("OCR") issued a new "Q&A on Campus Sexual Misconduct" ("2017 Q&A" or "interim guidance"). The purpose of the 2017 Q&A was to offer guidance while the USDOE engaged in a lengthy, formal rulemaking process on the topic of schools' Title IX responsibilities concerning complaints of sexual misconduct (including sexual harassment and violence).

The 11/16/2018 Notice of proposed rulemaking states that the proposed regulations seek to clarify and modify existing Title IX regulations, including specifying how covered educational institutions (including public schools) must respond to incidents of sexual harassment. The Notice claims the proposed regulations are intended to promote the purpose of Title IX by requiring recipients to address sexual harassment, assisting and protecting victims of sexual harassment, and ensuring the due process protections are in place for individuals accused of sexual harassment.

The proposed regulations focus on three things: (1) what constitutes sexual harassment for purposes of rising to the level of a civil rights issue under Title IX; (2) what triggers a school's legal obligation to respond to incidents or allegations of sexual harassment; and (3) how must a school respond to such incidents or allegations.

Moving forward, we will continue to monitor the proposed regulations and, when final regulations are issued, we will provide appropriate updates to our policy templates.

II. ACTIVE ASSAILANT RESPONSE Policy (Proposed Legislation)

As of the date of this release, the Florida Legislature is considering legislation that would require School Board's to adopt an Active Assailant Response Policy (SB 7030). The proposed legislation requires, among other things, the School Boards adopt "a well-developed, written, distributed, and trained upon active assailant response policy, which must be recommended by the superintendent." Please rest assured that Neola will closely monitor the legislation and, if it is adopted, move quickly to provide you with a legally compliant policy template.

Anticipated Release of Volume 20 Number 1

We anticipate releasing the Volume 20 Number 1 update in September, 2019.

FLORIDA OVERVIEW AND COMMENTS

SPECIAL RELEASE - MAY 2019 - SCHOOL SAFETY

On May 8, 2019, Florida Governor Ron DeSantis approved Senate Bill 7030 ("SB 7030"). SB 7030 (Florida Chapter Law 2019-22), titled "Implementation of Legislative Recommendations of the Marjory Stoneman Douglas High School Public Safety Commission," includes numerous legislative changes related to school safety and security. Due to the importance of school safety in Florida, time is of the essence with respect to addressing the changes outlined in SB 7030. Thus, Districts must carefully and timely review all of the proposed policy revisions contained in this Special Release to prepare policies that the Superintendent can recommend to the Board for adoption.

This special release includes:

Policy 5112 - Entrance Requirements (Revised)

Policy 5500 - Student Conduct (Revised)

Policy 8330 - Student Records (Revised)

Policy 8405 - School Safety and Security (Revised)

Policy 8407 - Safe-School Officers (Revised)

Policy 8420 - Emergency Management, Emergency Preparedness, and Emergency Response Agencies (Revised)

With respect to developing the language for the District's Active Assailant Response Plan set forth in Policy 8405, a number of resources were utilized, including, but not limited to, the following:

Finally, SB 7030 contains revisions to F.S. 1011.62 by adding additional categorical funds from which the Board may transfer funds when urgently needed to maintain Board-specified academic classroom instruction and/or to improve school safety. Neola will be providing proposed revisions to the Policy 6233 template in Volume 20, Number 1 update. In the meantime, District financial personnel should be cognizant of and adhere to the statutory revisions to F.S. 1011.62.

District-Specific Material

Although the proposed new and revised policies included in this collection have been thoughtfully prepared and reviewed by Neola's legal counsel for statutory compliance, it is the responsibility of each District to decide which policies and the specific language to include in its own unique policy collection. If the District makes changes, or substitutes in its entirety policies or other materials of the District's own drafting, those materials should be reviewed by the District's legal counsel to verify compliance. Neola does not review District-specific edits to update materials or District-specific policies for statutory compliance.

If the District chooses to adopt a new policy or guideline or incorporate Districtspecific material into an existing policy or guideline other than what has been proposed by Neola, then the District agrees to hold Neola harmless for those Districtspecific edits and acknowledges that Neola's warranty for legal challenges to that District-specific language in that policy or guideline will not be in effect. In addition, Neola retains ownership of the text from the original policy template that remains in a policy to which District-specific material has been

added. Districtspecific materials include the following:

- A. Materials from the District's existing materials that the District requests be incorporated during the drafting process;
- B. New materials that the District develops in their entirety and exclusive of Neola; and
- C. Revisions or deletions that substantively depart from Neola's templates.

Further, Neola does not recommend the use or incorporation of District-specific materials. Neola will, at the request of the District, incorporate District-specific materials into the licensed materials, with the implicit understanding that the District bears all risks associated with the District's decision to request that such Districtspecific materials be incorporated. Neola reserves the right to, but is not obligated to, advise the District to seek its own legal review of District-specific materials.
