- Effective 10/1/2019
- The preferred pharmacies in your network changed in order to help keep your overall prescription coverage more affordable. As a result of this change, CVS & Walgreens will no longer be in the preferred network. That means, after the date above, you will pay more for prescriptions unless you switch to a preferred pharmacy.
- If you keep going to a non-preferred pharmacy after October 1, 2019, you'll pay more for your medication. So before your next refill, be sure to switch to a preferred pharmacy.
- **How to switch to a preferred retail pharmacy:** Take your prescription bottle to your new pharmacy or call them and ask them to transfer your prescription. Or just have your doctor call your new pharmacy.
