The School District of Indian River County has established a multi-metric School Report Card for each school. The purpose of the School Report Card is to give a broader picture of how our schools are performing on a variety of indicators, beyond just the School Grade provided by the Florida Department of Education. The data used to determine the status of each indicator is presented on the following pages. Some indicators may have additional data presented that is not used to calculate the indicator status, but is included for informational purposes.

**Note:** Definitions for each indicator can be found in the Appendix. Technical data definitions and frequently asked questions can be found on the School Report Card homepage.
