

# Student Support During Quarantine

In the unfortunate event of a temporary quarantine due to COVID-19, SDIRC staff is committed to supporting your child during their time of absence.

Communication with your student's teachers during this time is vital to ensuring your student has the support needed to be successful. In accordance with Rule 6AER21-21, F.A.C., your student's teacher will make all assignments and curriculum available to keep your student progressing in their coursework. Teachers will continue to be available to answer questions your student may have during their time of absence. As a reminder, all SDIRC students have access to a wide variety of curriculum materials and resources available through their Classlink account.

In addition to the teachers, each school has an Instructional Advocate that will be available to answer questions you may have about your student's coursework should the teacher be unavailable.
