

Good morning homeschool families this Heather Holden from the homeschool office. I have three pieces of information to share with you today.

First, if you are interested in participating in the Indian River Regional Science and Engineering Fair, we are holding an online meeting on Sept 9th at 6:30pm. The information with the online link will be in the homeschool webpage under the students & families tab on the school district website as well as in the main website gallery. This will be a brief overview of paperwork requirements to participate.

The second opportunity is for high school students to participate in the state assessment make up window that is offered this Fall. These tests will be for high school aged students only who have completed the course. Algebra 1, Geometry, or 10th grade ELA will be offered the week of September 13th. To register for these testing opportunities please go to sdirc.info/hsf1 and fill out the registration form.

Finally, The PSAT will be offered to 10th and 11th graders on October 13th. The cost is \$20.00. Please go to the Vero Beach High School front office to register your child between September 2nd and September 10th.

A reminder that all state offered assessments are optional to homeschool students, unless you are planning to return to a public high school before earning a diploma from the state of Florida, these are not required.

As always, if you have any questions, feel free to call me at 772-564-3033
